Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

Dear Sir:

We are filing this water claim in order to assure an adequate water supply for our Sheep Creek Spring Pipeline. The spring was first developed in 1958 when license #D 1113 was issued for .05 cfs. Since that time the pipeline has been expanded and water use by livestock wildlife, and recreation has increased to .276 cfs. Although the pipeline was finished in 1970 the water rights were never amended to include the greater amount, until we noticed the water right application #17-7097 by Jerry D. Bush on Sheep Creek. We are concerned that this filing could adversely affect our water supply if granted as is.

If there is ample water at Mr. Bush's point of diversion after our water demands have been met, we will have no problem, otherwise we must protest his application in order to protect our interests.

Sincerely yours,

for. Nick J. Cozacos
