Dear Mr. Hill:

Re: Application for Transfer of Water Right No. 17-2055

In reviewing your original application for transfer, it appeared that the question concerning proof of ownership could best be resolved by providing additional information in Item A. 2. and C. 1. d. Therefore, enclosed you will find another application for transfer which, for your convenience, we have completed in our office in an attempt to clarify the points in question.

Please review the application to insure it is still consistent with your irrigation project, and initial any changes that you make. After completing your review, sign the document on the last page in the presence of a notary and return it to our office. The application should be accompanied by a copy of the sales contract with the State of Idaho concerning the land in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Section 36, unless you have already forwarded these papers to our office.

Application for Transfer
FILE #17-2055

NAME OF PARTY Frank Hill

EMPLOYEE Ernie Carlsen

RE: During telecon with applicant this a.m., I indicated there was a question concerning proof of ownership for the rights being transferred. Mr. Hill explained that his father, William M. Hill, was the previous owner of the land, and was the individual who perfected License #17-2055. William Frank Hill purchased property from his father. The land which W. F. Hill wants to transfer the water off of is being purchased from the State of Idaho and was therefore not included on the warranty deed originally submitted by Mr. Hill. Mr. Hill said he would provide a copy of the sales contract with the state to verify ownership of the land. Mr. Hill further indicated that he was not able to sell land in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 36 as intended, but desires to proceed with the transfer since the point of diversion being added is not as expensive to operate as the original well.

RE: Proof of Ownership - 17-2055

The contract of sale submitted by Mr. Hill as proof of ownership does not list that land in the N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 36, from which the water is being transferred. To verify ownership, Mr. Ralph Tovey, the Oneida County Assessor was contacted by telephone. Mr. Tovey stated the land in question is being purchased by Mr. Frank Hill from the State of Idaho, and that Mr. Hill has been paying taxes on this property.

The knowledge that the records of the Oneida County Assessor show Mr. Hill as the purchaser of this property should be sufficient to satisfy the requirements of Item A.2. on the application for transfer.

Hill and Ruth Hill, his wife, of Oneida County, State of Idaho, parties of the first part, hereinafter designated as the Sellers, and William Frank Hill and Iris Hill, his wife, and J. It is understood that portions of the above described property are being purchased by Contract of Sale from the State of Idaho and is subject to an unpaid balance of approximately \$ which sum the Buyers agree to assume and pay in addition to the hereinafter enumerated payments.

The Buyers agree to pay to the Sellers for the aforesaid property, as follows: \$1,500.00 per year for as long as either of said Sellers shall live and thereafter to the hereafter described heirs of the aforesaid Sellers the sum of \$250.00 each for six (6) consecutive years. RE: Application for Transfer of Water Right - HILL

Mr. Frank Hill
Holbrook, Idaho 83243

Dear Mr. Hill:

In reviewing the second application you submitted requesting an application for transfer to transfer a part of License 17-2055, I found some discrepancies.

Item No. 2 should show William M. Hill as the original holder of the license, and that you acquired the right as shown in the attached document. (You must attach a copy of the deed or other instrument as evidence of your ownership of the land described in the license.)

Item C.1.a. (page 2) should read 2.21 cfs.

It appears that what has been actually been done is to transfer the water from the N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 36 to the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 36 and add another point of diversion (well) in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36, all in T. 15S, R. 32E.

The application for transfer can be submitted to include both wells to be used in conjunction with each other, as along as the combined discharge from both wells does not exceed 2.21 cfs as provided in License 17-2055.

We have retyped the application and returned it for your signature. If you can approve the application, please sign before a Notary Public as you did before and return with the statutory filing fee of \$35.00 with a copy of your deed of ownership for processing. We have returned your check No. 92-86 in the amount of \$35.00 which may be returned with this application.

Any amount of water over the 2.21 cfs licensed under 17-2055 from the two wells used on the described lands will have to be appropriated under the permit system.

If we can be of further assistance to you, please contact this office.

Very truly yours,

Re: Application for Transfer of Water Right HILL

Mr. Frank Hill
Holbrook, Idaho 83243

Dear Mr. Hill:

We are returning your application for transfer of a water right and check No. 2194 for \$30.00 because the money sent in payment of the filing fee was insufficient.

Effective July 1, 1978 the State Legislature adopted a new statutory fee schedule for applications and claims received by the Department of Water Resources. This new schedule pertains to your application because it was received in our office after the July 1 deadline.

Please resubmit the application for transfer accompanied by a check for \$35.00 to cover the new statutory filing fee and a copy of your warranty deed showing proof of ownership for the land appurtenant to license No. 17-2055.

Should you have any questions concerning this matter please feel free to contact this office.

Respectfully submitted,

ERNEST CARLSEN

Dear Mr. Hill:

One of the conditions of approval of your water Permit No. G-33044/17-2055 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33044 (New No. 17-2055)

Mr. William M. Hill
Holbrook,
Idaho 83243

Dear Mr. Hill:

During the 1967 session of the Idaho Legislature certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies the above referenced permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed form, we will cause the notice to be published.

If you have any questions regarding the above, please contact us.
