Idaho as herein

Remarks: Chester Eliason is the owner and holder of license issued by the Department of Reclamation No. G-24259 and the water from the well covered is used to irrigate by gravity flow the lands described in said permit. The water arising from the well contemplated under this application for permit will be used in a sprinkler irrigation system and will cover the high lands which cannot be irrigated by the gravity system. This is the explanation of the reason for "over-lapping" of grounds covered by the two permits.

Remarks: Chester Eliason is the owner and holder of license issued by the
Department of Reclamation No. G-24259 and the water from the well covered is
used to irrigate by gravity flow the lands described in said permit. The
water arising from the well contemplated under this application for permit
will be used in a sprinkler irrigation system and will cover the high lands
which cannot be irrigated by the gravity system. This is the explanation of
the reason for "over-lapping" of grounds covered by the two permits

BE IT KNOWN That the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Dear Mr. Wright:

Your letter of April 26, 2000 (copy enclosed) has been forwarded to me for processing.

Our records show that the current owner of water right 17-02054 is Chester Eliason & Sons. I have enclosed a copy of the water right license for your information. If the legal description of the property that your clients are concerned with for the subject loan matches that of the water right license there needs to be a change of ownership filed with our office.

I have enclosed a Notice of Change of Water Right Ownership form for your convenience.

If you have any questions regarding this matter, please call me at 208-327-7941.

Sincerely,

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 33042/17-2054 and has found the following:

Quantity of water diverted: 0.58 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.58 cfs

The maximum quantity diverted shall not exceed 217 acre feet per season.

Beneficial use: Irrigation of 62 acres within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ (16), Sec. 24 and NW $\frac{1}{4}$ NE $\frac{1}{4}$ (8), NE $\frac{1}{4}$ NW $\frac{1}{4}$ (38), Sec. 25, Twp. 14S, Rge. 32E, B. M.

Point of diversion: NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, Twp. 14S, Rge. 32E, B. M.

The priority date established is: July 14, 1966

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Dear Mr. Eliason:

Enclosed please find a copy of the approved application for amendment for your Permit No. 33042/17-2054. Also enclosed is departmental receipt No. 8977 in the amount of \$10.00 covering the amendment filing fee for this permit.

We have enclosed a copy of our letter dated September 29, 1972, in connection with your Permit No. 27928/17-2044. You will note that there is a \$21.00 licensing fee due under this permit. We also require an amendment application and \$10.00 amendment fee under this permit before a water license can be issued. We have also enclosed, for your convenience, another application for amendment for your signature. Please return the amendment form with the proper fees as soon as possible in order that we may issue this water license.

RE: Permit No. 17-2054

Mr. Chester Eliason
Holbrook, Idaho 83243

Dear Mr. Eliason:

On August 1, 1972, the Department of Water Administration conducted an examination of the ground and diverting works of Permit No. 17-2054. The examiner's findings indicate that eight acres in Sec. 25, T 14S, R 32E, are being irrigated but are not listed under this permit.

It is a simple matter to include the extra eight acres under Permit No. 17-2054. The necessary application for amendment has already been filled out, requiring only your signature and the additional filing fee for amendment which is \$10.00.

If you have any questions, please do not hesitate to contact this office.

Gentlemen:

One of the conditions of approval of your water Permit No. G-33042/17-2034 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Chester Eliason & Sons
Holbrook,
Idaho 83243

Gentlemen:

During the 1967 session of the Idaho Legislature certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use.

The enclosed order modifies the above referenced permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will complete and return the enclosed form, we will cause the notice to be published.

If you have any questions regarding the above, please contact us.

Dear Mr. Ellison:

It has been brought to our attention that on or about
March, 1967, you had a well drilled. The
well is reported to be located at a point in the NE $\frac{1}{4}$
NW $\frac{1}{4}$, sec. 24, T. 14 S., R. 32 E., B.M. for
irrigation use.

A search of our records has failed to find your
application or approved permit. Under existing Idaho
Statutes, Sections 42-226, 42-229, and 42-230 of the
Idaho Code, you are required to file and obtain an
approved permit before you divert waters from a sub-
terranean source, with the exception of domestic wells
which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the
department as to your permit number. However, if you have
not yet filled out an application for permit, please use
the instructions and the blank application form which
we have enclosed.

We will be very happy to assist you with any questions
you might have.

Gentlemen:

Returned herewith your application to appropriate the subterranean waters of the State of Idaho and personal check for \$5.50, application fee.

It is noted under Item #2, you have requested 3.0 cfs or 150 miners inches of water. The Idaho Code allows the maximum rate of diversion of 1 miners inch per irrigable acre. As you are applying for 140 acres of land, the maximum water we can allow would be 140 miners inches or 2.8 cfs. The only exception to this would be upon special petition to the State Reclamation Engineer for additional water, stating the reason, water in addition to 1 miners inch per acre is required.
