License and Certificate of Water Right

Water License No. 21439

Amount 0.8 second foot

Water District No. _____

Priority February 28, 1950

THIS IS TO CERTIFY that H. B. ROBBINS
of Stone, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated February 28, 19 50; that Permit No. 21439
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
One second foot, was issued thereunder on August 5, 19 52, showing that said works
were completed on the 8th day of October, 19 51; and that on the 20th
day of October, 19 52,

H. B. ROBBINS

of Stone, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of an un-named
stream, a tributary of _____, for the purpose of irrigation and domestic
use, under Use Permit No. 21439 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 5158, on the 6th day of October, 19 53;

The right hereby confirmed dates from February 28, 19 50;

The Point of Diversion is located

in the NW 1/4 SE 1/4 Sec. 23, Tp. 16 S R. 32 E., B. M. County Oneida

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 0.8 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT

17-2023

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29128
 PERMIT No. 21439
 DISTRICT No.

1. Name of Applicant: H. B. ROBINS

Postoffice address: Stone

County: Oneida

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (b) Treasury stock:
- (d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: One

cubic feet per second.

3. Source of water supply: Unnamed stream

which is a tributary of

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B. M., and is in the SW $\frac{1}{4}$ NE $\frac{1}{4}$

of Section 23 , T. 16 S. , R. 2 E. , B. M., County of Oneida

5. Water is to be used for Irrigation and domestic purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B. M., in the
 of Section , T. , R. , B. M.

7. Estimated cost of works: \$400.00

8. Kind of works: Headgate and ditch

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width 2 feet; height 2 feet.

11. Ditch: Width at bottom 1 $\frac{1}{2}$ feet; width at water line 5 feet; depth of water 0.5 feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is One and one-half years.

13. The time required for the complete application of the water to the proposed use is One additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit:
(c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

Corrected application received: March 24, 1950

Approval of State Reclamation Engineer

The number of this permit is 21439

Recorded in Book 77 Page 21439 Approved April 6, 1950

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before June 6, 1950 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before January 6, 1951

The whole of said work to be completed on or before October 6, 1951

Beneficial use of water appropriated in accordance herewith, to be made on or before October 6, 1952

WITNESS My hand this 6th day of April, 1950

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, C. A. ROBBINS, Governor of the State of Idaho,

and J. D. "JOY" PRICE, Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 6th

day of April, 1950.

STATE OF IDAHO

Countersigned:

(SEAL)

By C. A. ROBBINS

By J. D. "JOY" PRICE

Governor.

Secretary of State.

REMARKS: The water that I wish to appropriate is drainage and runoff waters that has not been used or controlled for the last sixty years, to my certain knowledge, with the exception of what reaches my farm, after scattering out and sinking all the way down- including water from Roland Stowel farm. I will not claim or ask for any waters that originate on any other man's land that he does control now or may control in the future. My only object is to prevent others from cutting my ditch and taking the water after they learn it is of value to me. The amount of water will be indefinite. This water is an unnamed stream and will run from nothing at all to perhaps 150 inches.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, No. 21439

Comes now H. B. ROBBINS, and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 21439. That the point of diversion is described in said permit as being located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B. M. That he now requests that the point of diversion be changed to a point in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B. M. That his reasons for desiring to make such change are as follows: Course of the stream has changed, making such change in point of diversion necessary. That no one will be injured by such change, and that such change will be made at Permit holder's own risk. Signed at Stone, Ida., this 18 day of July, 1952.

H. B. ROBBINS

Date of receipt at Department of Reclamation August 5, 1952.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 21439. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

PERMIT NO. 21439
CERTIFICATE OF COMPLETION OF WORKS

To All Whom it May Concern:

This is to certify that H. B. ROBBINS, of Stone, County of Oneida, and State of Idaho, the holder of Permit No. 21439, issued upon Application No. 29128, bearing date of priority of February 28, 1950, authorizing the diversion of One second foot of the waters of an un-named stream, County of Oneida, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use One second foot of the waters of said un-named stream; that the point of diversion of said waters is in the $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B. M.; and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23, and NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, Twp. 16 South, Range 32 East, B.M.

Witness my hand this 5th day of August, A. D. 1952.

RE: Permit No. 21439

Mr. H. B. Robbins
Stone
Idaho

Dear Mr. Robbins:

We now have on file the report of our field engineer on examination for beneficial use under Permit No. 21439.

This report shows that you have irrigated 40 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23, and NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, Township 16 South, Range 32 East, B.M.

Therefore, upon receipt of the statutory fee of \$4.00, a license can be issued for 0.8 of a second foot of water from an unnamed stream with point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B.M.

Very truly yours,

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21439This proof is for Beneficial use In Water District No. _____1. Name of applicant H. B. Robbins, Stone, Idaho2. Source of water supply: An un-named stream3. Location of point of diversion: Is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23T. 16 S. R. 32 E. County of Oneida

4. Describe works as they exist, giving dimensions and capacities of same: This is merely use of flood water. Ditches are 12 to 18 inches wide in the bottom and 12 to 18 inches deep. Small dam of mud and rocks is all that is required to make the diversion.

5. Water is used for: Irrigation and domestic purposes6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23;NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26;Twp. 16 South, Range 32 East, B. M.See Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: He has secured sufficient water by this means to do a fairly good job of irrigating on the North 15 acres. All the water that has ~~been~~ the land on the South 40 has had to flow completely across a small canal. Mr. Robbins claims that on certain years the canal is frozen over completely and that the water flows across and benefits at least 25 acres in this So. 40. He says there is sufficient water at times that it washes away the banks of the canal. This apparently is supplemented by excess stock water which is released down the canal. The condition was troublesome enough that Robbins claims he won a decision in court approx. a year ago for the payment of some \$1,350.00 damage from the canal company.

This examination was made on the 25th day of August, 19 53(Signed) E. W. Humphrey Examiner.

Mr. H. B. Robbins
Stone,
Idaho

Dear Mr. Robbins:

I intend to make inspection, as required by law, in connection with your Permit No. 21439 some time during the week of August 23rd.

This inspection is required by Idaho State Law.

Please be prepared to accompany me on the inspection, or have some one familiar with your water system do it for you.

I cannot state the exact day, but will try to contact you, probably by telephone, before making any inspection.

Very truly yours,

MARK R. KULP

Mr. H. B. Robbins
Stone
Idaho

Dear Mr. Robbins:

We have now received the affidavit of publication in the Idaho Enterprise which completes your proof of beneficial use on Permit No. 21439.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

RECEIVED
OCT 28 1952

Department of Reclamation

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 20th day of October, 1952, at Malad City, County of Oneida, State of Idaho, before Bill Fallis, Probate Judge, proof will be submitted of the application to beneficial use of one cubic foot per second of the waters of an unnamed stream in accordance with the terms and conditions of Permit No. 21439 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are H. B. Robbins, Stone, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is One second foot.

The place where said water is used: SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23, and NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, TWP. 16 South, Range 32 East, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Unnamed canal or ditch.

The right to take water from such works is based upon Permit No. 21439.

The source of supply, an unnamed stream diverted, from which such water is diverted is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B.M.

The date of priority which said user is prepared to establish is February 28, 1950.

Permit No. 21439.....

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. B. Robbins, Stone, Idaho; rancher; Stone, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 21439, April 6, 1950. ²⁻²⁸⁻⁵⁰ October 20, 1952 date of priority.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source: Unnamed stream. NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Ditch. One and one-fourth cubic feet. Unnamed ditch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes. SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23, and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, Township 16 South, Range 32 East B.M.
SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23 - 10 acres consisting of 6 acres of alfalfa and 4 acres of grass pasture. NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, - 4 acres of pasture land and 15 acres ready for spring seeding into alfalfa.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not to be used for power.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. None

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Ranging from the 20th of March down to present time. Used for irrigation. Variable amounts according to amounts procurable ranging from 1 1/2 feet to nothing at all. All that I could procure.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The water is being used only for irrigation and domestic purposes that was given under permit 21439.

(Sign) A. B. Robbins

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Malad City, County of Oneida, State of Idaho, on this 20th day of October, A. D. 1952,

PERMIT NO. 21439

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Arnold R. North, Stone, Idaho. Occupation-farmer. P.O. address Stone, Idaho

Ques. 2. Are you acquainted with H. B. Robbins, the holder of Permit No. 21439? How long have you known him and where does he reside?

Ans. About 18 years. He resides at Stone, Idaho

Ques. 3. Have you read or heard read said Permit No. 21439, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unnamed Stream, The place of diversion is located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B. M. Works for conveying water from point of diversion to place of use are: Ditch and Headgate,

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Five S^Econd Feet

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The use of water will be for irrigation and domestic purposes and it is to used on cultivated land. The number of acres land that can be irrigated is from ten to twenty acres. The water is to be used on the H. B. Robbins's farm.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation and domestic purposes. (only)

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Heavy Clay Soil. All the water that comes from the stream.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Helped Mr. Robbins make the ditch for the use of the water in the spring of 1950. All the water is being used on the farm of Mr. Robbins.

(Signed)

Arnold B. Keith

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Malad City,
County of Oneida, State of Idaho, on this 20th day of October,

PERMIT NO. 21439

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Victor Anderson, Stone, Idaho. Occupation-farmer. P.O. address Stone, Idaho

Ques. 2. Are you acquainted with H. B. Robbins, the holder of Permit No. 21439? How long have you known him and where does he reside?

Ans. Yes. Residence-Stone, Idaho

Ques. 3. Have you read or heard read said Permit No. 21439, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unmaned Stream, The place of diversion is located in the SW¹/₄SE¹/₄ Section 23, Township 16 South, Range 32 East, B.M. Works for conveying water from point of diversion to place of use: Headgate and ditch.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Five Second Feet

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

✓ Ans. H. B. Robbins's farm. Irrigate from ten to twenty-five acres of land
The land that water is used upon is cultivated.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Is not used for power purposes.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Heavy clay soil. All the water that is granted under permit 21439.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In the spring and fall of 1950. All the water from this unmaned stram was being used.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 20th day of October, 1952, at Malad City, County of Oneida, State of Idaho, before Bill Fallis, Probate Judge, proof will be submitted of the application to beneficial use of One second ^{foot} / ~~second~~ cubic ~~foot~~ per second of the waters of an unnamed stream in accordance with the terms and conditions of Permit No. 21139 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are H. B. Robbins
Stone, Idaho

The use to which said water has been applied is irrigation and domestic

The amount applied to beneficial use is One second foot

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

SE $\frac{1}{4}$ SW $\frac{1}{4}$ SECTION 23, and NE $\frac{1}{4}$ NW $\frac{1}{4}$ SECTION 26, TWP. 46 SOUTH, RANGE 32
EAST, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

Unnamed canal or ditch

The right to take water from such works is based upon Permit No. 21139

The source of supply from which such water is diverted is an un-named stream diverted
in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ SECTION 23, TOWNSHIP

16 SOUTH, RANGE 32 EAST, B. M.

The date of priority which said user is prepared to establish is February 28, 1950

MARK R. KULP

State Reclamation Engineer.

21139

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date).....August 29, 1952.....

(P. O.).....Stone, Idaho.....

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
IDAHO ENTERPRISE.....of MALAD CITY, ONEIDA COUNTY, ^{State of Idaho} published in
the county in which the works are situated.

H B Robbins

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

.....
Engineer.

Re: Permit No. 21439

Mr. H. B. Robbins
Stone, Idaho

Dear Mr. Robbins:

We return your application for amendment to the point of diversion in Permit No. 21439, which has been approved by the State Reclamation Engineer, and duly recorded.

We also enclose Certificate of Completion of Works issued under this permit for the diversion of one second foot of water from an un-named stream, with point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B. M., for irrigation and domestic use on the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23, and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, Township 16 South, Range 32 East B.M.

Also Departmental Receipt No. 24679 for the \$5.00 fee paid in connection with completion of works proof.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Boise, Idaho

August 1, 1952

Mr. H. B. Robbins

Stone, Idaho

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 21139. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than October 6, 1952, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

RE: Permit No. 21439

Mr. H. B. Robbins
Stone
Idaho

Dear Mr. Robbins:

Mr. E. N. Humphrey, Deputy State Reclamation Engineer, made a check of the point of diversion of the land called for in your Permit No. 21439, and he advises that the stream course has been changed and that your point of diversion is actually in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23, Township 16 South, Range 32 East, B.M., instead of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ as given in the original application and permit.

We therefore enclose an application for amendment to the point of diversion which you may sign and return to this department and, upon receipt and approval of which, your certificate of completion of works can be issued.

However, your check for the \$5.00 fee in connection with proof of completion of works is dated October 6, 1951, and has been held awaiting an examination to locate the correct point of diversion.

Since that is more than six months ago, we return the check and ask that you substitute for it one with the current date.

Very truly yours,

Mark R. Kulp
State Reclamation Engineer

Dear Sirs:

I am enclosing a map showing the section of land on which the said ditch described on enclosed papers that were sent for proof of completion of works, which appears is not described correctly. There has been ~~two~~ work on the description and neither one agrees with the description I sent in on the application for permit. The map will show the land over which the ditch runs and the legal subdivisions it crosses. The circle will designate the point of diversion and the cross will designate the corner where it enters my farm but for fear of making another mistake I am asking that it be described as marked on the map by someone that is accustomed to the work. I will enclose a one dollar

bill for the good friend that will do that and delegate to him the power of attorney to correct the papers as neither one appears to be right to me. As to the name of the creek, it has no name other than the one I put in which it is sometimes called which I will cross out and substitute "~~unnamed~~ stream".

I am sorry to cause so much trouble but it seems that errors will creep in.

Thank you very kindly for your help and interest in the matter.

Very truly yours,
H B Robbins

P.S. I am returning all papers concerning the matter that may be of some help.

DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. H. B. Robins

Stone, Idaho

Boise, Idaho **August 1, 1951**

Dear Sir:-

Under the terms of your Permit No. 21439.....you are required to complete your diversion works on or before October 6, 1951..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intened use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

MARK R. KULP

Civil & Irrigation Engineer

RECEIVED
MAR 24 1950
Department of Reclamation

Stone Idaho Mar 23. 1950

Mr. J. S. Anderson

Dear Mr. Anderson: I received your letter as of Mar 20, in connection with my request for permit to raise the amount of water I could use, or get a permit for.

I have 110 acres of land on which I could use water. but the real question is, would I obligate My Self to irrigate a given amount of land, before I could prove up on any more, but I guess you understand that the large amount would only last for about two weeks, and then it drop off to a very small stream, and from there it would depend very much on weather conditions, and just how much the land owners allow to waste or run off their meadows or farms, I will use all the water I can get, but could not obligate My Self to irrigate more land than I can get water for, but My object was to use all the water that came, with question.

If you think best, let it remain as is. I could have included the SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec 23, Tp 16 R 32 E B.M.

I thank you very much.

Truly Yours H. B. Robbins

March 20, 1950

Mr. H. B. Robbins
Stone, Idaho

Dear Mr. Robbins:

We acknowledge receipt of your letter of March 15, in connection with your application for Permit to appropriate .5 of a second foot (or 25 inches) of water from an unnamed stream with point of diversion in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 23, Township 16 South, Range 32 East, B.M., for irrigation and domestic use on 25 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, same Township and Range.

We note that you wish to change your application from 50 inches to 150 inches, but the Statutes only allow an inch to the acre for irrigation purposes. If you wish to include other land besides the 25 acres above described, we can allow you a larger amount of water.

We shall await your further advice with the location of the additional land, if any.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

24439

Stone Idaho Mar 15th 1950

Mr Mark R Kulp.
State Reclamation Engineer

Dear Sir - I

did some rechecking on conditions and amount of water running to waste over country and at present there is about one hundred and fifty inches, but it will decrease quite rapidly, but I had better change from 50 to 150 inches, so I will have what ever comes, much as little. I will have quite a little ditching to do to get the runoff all in one channel so I will raise the cost of works, to four hundred dollars. I believe the depth of water in described ditch, should be one foot instead of .5 foot. I hope to get about three feet per mile fall. I have checked the proposed changes, thus ✓

I thank you for your help in this matter
You have been very considerate
Any extra expense I will meet at once

Very Truly Yours
H B Robbins

February 20, 1950

Mr. H. B. Robbins
Stone, Idaho

Dear Mr. Robbins:

We are in receipt of your letter of February 17, 1950, and in reply, we enclose a Form of Application for Permit to Appropriate the Public Waters of the State of Idaho, together with a pamphlet giving regulations and instructions in regard to filing same.

The water which you claim can be described as an unnamed stream and under "Remarks" on the third page, you can describe it more fully, as mentioned in your letter.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

RECEIVED
FEB 20 1950

Department of Reclamation

State Idaho Feb. 17 1950

Idaho State Engineer

Boise Idaho.

Dear Sir - I am writing you to learn just what I must do, to record Certain waters, which has been running to waste, for many years, having been draining from Meadows and Open Court-
any, Such as spring runoff, drains, and seeps, that can not be held up.

I do not wish, nor will I claim, or ask for, any waters, that can be used, or held up, on any lands, from which the water originates, but purely waste water, that has never been used by any one, with the exception of what little came down on to my farm, for the last 50 years.

I concluded that by building a small ditch, - which I did last summer - I could have a small stream, the year round - or untill it froze up in winter, and such it was.

When Others find I am making something of value out of that water, They will, probably want to do the same thing

And that is the reason I want to record the water; to prevent some one from stopping the water on its way down from the source.

I understand there will be a fee charge which I will send at once, I believe you have farms on which to apply, And I will be pleased to answer any questions, or give any information that you desire.

Please Advise Me. and Oblige
