INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Dear Mr. Scott:

After checking with the Attorney General's office we have decided we can accept the depositions even if they do not agree with the legal advertising. So, if you will be so kind as to return the depositions we will accept them.

We do not feel, however, that our office is in need of an overhaul, but we do agree the water laws could use some up-dating. This, of course, is being taken care of and may get into this session of the legislature.

Sorry for this inconvenience.

Very truly yours,

Dear Mr. Bosch:

I object to having to go through the procedure outlined in your letter on the reverse side hereof. In the first instance, the Governor of the State of Idaho has given me a commission as a Notary Public. Now if you people are not willing to accept my statement over my hand and seal relative to the matters discussed on the reverse side hereof, then I think your office is in need of an overhauling. Having a Notary Public go out and have another Notary Public notarize his statement appears to me to be absurd.

Please advise.

Dear Mr. Scott:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29665, in the name of Foster Ipsen. Final Proof is to be made before you, as Notary on the 14th day of April, 19 66, at XXXXX o'clock XXXXX, at 26 Court St., Malad City, Idaho.

As of this date, we have mailed the Notice to the Idaho Enterprise, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Re: Permit No. G 29665

Dear Mr. Tappen:

I am enclosing Notice of Proof of Completion of Works
in connection with the above identified permit.

Nephi R. Ipsen died some time ago and his estate was
probated and his property distributed to his wife, Ada
Ipsen as survivor of the community. Mrs. Ipsen sold the
real estate including the permit to her son Foster
Ipsen who is now the owner and holder of the above permit.
I don't know whether a formal assignment was made for this
permit to Foster by Mrs. Ipsen. At any rate, I feel that
we can go ahead and make Proof of Completion of Works and
Application of Water to Beneficial Use on behalf of Foster
Ipsen and if there is anything further that needs to be done
by way of assignment, we can accomplish this during the
period of publication.

Please advise as to anything necessary in connection with
this permit.

Very truly,

Re: Permit No. G - 29665

Nephi R. Ipsen

Dear Mr. Ipsen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-29665 are due not later than **Apri. 28, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
