APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-33686
Permit No. G- 25821
District No.

1. Name of Applicant: OSCAR LARSEN, J. E. BLAISDELL & SONS, PAUL H. MILLS & MILTON T. JONES
Postoffice address: RFD No. 1, Malad County: Oneida State: Idaho
2. Quantity of water claimed: 7.40 cubic feet per second
 (a) Rate of withdrawal in cubic feet per second. 7.40 or Idaho
 Miners' inches 370 or gallons per minute.
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Underground water; deep well and pump
4. Location of point of diversion or well is in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 24
 Twp. 14 S, Rge. 33 E, B.M., County of Oneida
5. Water is to be used for: Irrigation of Crops
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section, Twp.
 Rge., B.M.
 - (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section, Twp., Rge., B.M.
7. Kind of works: Deep well and Pump
8. Estimated cost of works: \$7200.00
9. (a) Is reservoir to be used? Yes
 (b) Capacity of reservoir: 12 Hours pumping
10. The time required for the completion of such work and complete application of the water to the proposed use is Two years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash onhand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Re: Permit No. G-25821
J. E. BLAISDELL & SONS

Mr. E. L. Scott
Ray & Scott
Attorneys
Malad City, Idaho

Dear Mr. Scott:

We enclose the following:

Application for Amendment to Permit No. G-25821 as approved by the Acting State Reclamation Engineer and recorded in the Department of Reclamation in Book 91 of Permits at Page 25821 amending the list of land as described on record of permit to read as follows: "NW $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, Boise Meridian, only, making a total of 150 acres." This amendment should now be attached to the original permit to which it refers and of which it becomes a part.

Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-25821, confirming the right with priority of June 21, 1955, to the use of 2.04 second feet of subterranean water, with the point of diversion in the NE $\frac{1}{4}$ of Section 24, for irrigation of 150 acres in the NW $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, B.M.

Departmental receipt #G-3371 for \$13.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and eight dollars for the license fee.

Very truly yours,

E. N. HUMPHREY
Acting State Reclamation Engineer

Permit No. G25821

Proof of Application of Water to Beneficial Use

Deposition of Holder ^{and Completion of Works}

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Theron L. Blaisdell, Route 1, Malad City, Idaho, Farmer, Route 1, Malad City, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual permit.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G25821, date of permit July 25, 1955; The date of priority which the user is prepared to establish is June 21, 1955.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground water, deep well and pump. The point of diversion of the water is NE $\frac{1}{4}$ NW $\frac{1}{4}$ of sec. 24, Twp. 14 S., Rge. 35 E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works for conveyong the water from the point of diversion to the place of use are deep well and pump, an overnight reservoir with tiled pipe line running from the well to the overnight reservoir, and irrigation ditches to convey the water to the place of use.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of crops. The place where the water is to be used is NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ all in sec. 24, Twp. 14 S., Rge. 35 E. B. M. Total acres 400. All the land is under cultivation.

CORRECTED DESCRIPTION IS: NW $\frac{1}{4}$ Sec. 24, Twp. 14 S. R. 35 E. B. M. ONLY

Theron L. Blaisdell
June 9, 1958

H 25821

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. No power generated. The water from the well is used for the irrigation of crops.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. None for power.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Individual permit issued to J. E. Blaisdell and Sons

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water was put to use on June, 1956; The water was pumped from the well into an above night reservoir, the water is then conveyed to the place of use by irrigation ditches on the following described land: the NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ all in Section 24, Twp. 14 S., Rge. 35 E., B. M. Total acres 400. The amount of water being used is 7.40 cubic feet per second.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 11 shares of the water of the St. John Irrigating Company can be used on land described in question 10.

Department of Reclamation

Permit No. G25821

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John A. Evans, age 63, 152 North 70 East, Farmer, 152 North 70 East,
Malad City, Idaho.

Ques. 2. Are you acquainted with J. E. Blaisdell & Sons, the
holder of Permit NoG25821? How long have you known him and where does
he reside?

Ans. Route 1, Malad City, Idaho. I have known the Blaisdell family for thirty
years.

Ques. 3. Have you read or heard read said Permit NoG25821, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Under ground water; ^{Deep well} The place of diversion is NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 24, Twp. 14 S.,
Rge. 3 E., B. M. The works for conveying the water from the point of diversion to
the place of use are deep well ^{and pump} an over night reservoir with tiled pipe line running
from the well to the overnight reservoir, and irrigation ditches to carry the water to
the place of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 7.40 cubic feet per second. The works are capable of conveying to the place
of use 7.40 cubic feet per second.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. The pump will draw from the well, I would estimate 1250 gallons per
minute.

G25821

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of crops. The place where the water is used is NW¹/₄, E¹/₂SW¹/₄, SE¹/₄ all in sec. 24, Twp. 14 S., Rge 35 EBM. Total acres 400. All this land is under cultivation.

CORRECTED DESCRIPTION IS: NW¹/₄ Sec. 14, Twp. 14 S. R. 35 E.B.M. only

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No Power.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The water is used for the irrigation of crops. The character of the land is a sandy loam. The amount of water required for its cultivation is 7.40 cubic feet per second.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen all the water that is being pumped from the well put to beneficial use.

(Signed)

John A. Evans

Ques. 3. Have you read or heard read said Permit No. G25821, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground water, deep well and pump. The place of diversion of said water is NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 24, TWP. 14 S., Rge. 35 E.B.M. The works for conveying water from point of diversion to the place of use are Deep Well and over night reservoir with a tiled pipe line running rom the well to the overnight reservoir and irrigation ditches to carry the water from the over night reservoir to the place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 7.40 cubic feet per second. the works are capable of conveying to the place of use 7.40 cubic feet per second.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I esimated that the water pumped from the well is 1250 gallons per minute.

G25821

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of crops. The place where the water is used is NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ all in sec. 24, Twp. 14 S., Rge. 35 E.B.M. Total 400 acres. All this land is under cultivation.

CORRECTED DESCRIPTION IS: NW $\frac{1}{4}$ Sec. 14, Twp. 14 S. R. 35 EBM ONLY

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No power.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The water is used for the irrigation of crops. The character of land is a sandy loam. The amount of water required for its cultivation is 7.40 cubic feet per second.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen all the water that is being pumped from the well put to beneficial use.

(Signed)

A. Rex Jensen

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Malad City, County of Oneida, State of Idaho, on this 13th day of February, A. D. 1957.

Probate Judge

Bill Fallis

Notary Public.

Malad, Idaho

Dear Mr. Scott:

We refer you to our past correspondence to you relative to Permit No. G-25821, Blaisdell & Sons. Unless the corrected depositions of proof of completion of works and beneficial use in connection with said permit, together with the application for amendment which will correct the record of the Permit to include only the NW $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, B.M. are received within the next few days, we will assume that it is not the intention of the applicant to bring the permit to license and will return his check for \$13.00 which was sent in for the Certificate of Completion of Works and the License.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Attention: Mr. E. L. Scott

Dear Mr. Scott:

Under date of January 31, 1958, this department wrote you a letter returning the Deposition of Mr. Blaisdell & Sons, and the Depositions of two witnesses, in connection with same, of final proof of Completion of Works and Application of Water to Beneficial Use.

To date we have had no reply to the letter or the depositions have not been returned to this department.

We would appreciate immediate action in regard to this matter.

Very truly yours,

Re: Permit No. G-25821
Blaisdell & Sons

Ray & Scott
Attorneys At Law
Malad, Idaho

Attention: Mr. E. L. Scott

Dear Mr. Scott:

This will acknowledge affidavit signed by Nolan F. Blaisdell and subscribed and sworn before you as Notary, in reply to our office letter of November 20, 1957.

However it will be necessary, before license can be issued on this permit, to have the permit amended on the form enclosed, changing the place of use from the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and the E $\frac{1}{2}$ SW $\frac{1}{4}$ and the SE $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, to the NW $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, only.

We are also returning the Deposition of Holder and the two witnesses and will request that the land to be irrigated, as shown under question (6) of the holder's deposition, be changed to read the NW $\frac{1}{4}$ of Section 24, only. To do this legally, we request that you show, without erasing the answers under question (6) but to show in addition, a correction of land or land description, to the NW $\frac{1}{4}$ only and give the date and the initials or name of the person correcting same. We think the same should be shown under question (7) of both of the witnesses on their depositions.

Please make the necessary corrections and amendment and return all papers to this department.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G-25821
Blaisdell & Sons

Ray & Scott
Attorneys At Law
Malad, Idaho

Attention: Mr. E. L. Scott

Dear Mr. Scott:

We will try and answer your letter of November 15, 1957 relative to the status of the above captioned permit.

In checking over the permit in the files in this department relative to this permit, we assume that you ment, in the first instance, by the filing the assignments of Larsen, Mills & Jones interests in said permit, that the said three joint holders of said permit would be eliminated along with their land ownerships from said permit. However, the records in this department do not bear out this assumption.

The status of the permit is as follows: - Oscar Larson, J. E. Blaisdell & Sons, Paul H. Mills and Milton T. Jones filed a joint permit for 7.40 cubic feet per second from the subterranean flow by well, with point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, for the irrigation of the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and the SE $\frac{1}{4}$ and the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East. Assignments are recorded in this department whereby Larsen, Jones and Mills assigned all their interest in said permit to Blaisdell and Sons.

On the notice of Proof of Completion of Works and Application of Water to Beneficial Use, a notice was sent in to this department stating that the place of use of said water was the NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ and the SE $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, and was so published. On the depositions sent in to this office by the holder of said Permit, Theron L. Blaisdell, made Proof of Application of Water to Beneficial Use and Completion of Works stating in his proof sworn to and signed by Bill Fallis, Probate Judge, and in answer to Question (6) of the deposition stated as the place of use of said water as the NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, for a total of 400 acres of land irrigated.

G25821

E. L. Scott

-2-

November 20, 1957

He also states in his own deposition that water was put to use on June, 1955. The water was pumped from the well and into an overnight reservoir, the water then conveyed to the place of use by irrigation ditch on the following described lands; NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ Section 24, Township 14 North, Range 35 East, - total acres - 400. The amount of water being used is 7.40 cubic feet per second. In the depositions of the two witnesses for Mr. Blaisdell, they state that the amount of water capable of being conveyed to the place of use was 7.40 cubic feet per second and the place of use where the water is used is the NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 24, Township 14 South, Range 35 East - total of 400 acres.

With the above information and from the deposition of the holder and the two witnesses, this department could only assume that Mr. Blaisdell was the sole owner of said permit and the place of use was the NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East and consisted of 400 acres of cultivated land.

Our field engineer who made the inspection made his inspection report as follows: "Well located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 24, Township 14 South, Range 35 East and gave the place of use as being in the NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ and the SE $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East".

We now assume from your letter of November 15, 1957 that your intentions were to eliminate Larson, Mills and Jones and all supposed land ownership from the permit at the time the assignments were filed with this department, thus leaving Mr. Blaisdell and Sons with the 160 acres located in the NW $\frac{1}{4}$ of Section 24. If this is a fact, Mr. Blaisdell should have only proved up on the 160 acres in place of proving up on the 400 acres as the proofs indicated.

Providing our assumption is correct, if you will furnish this department with an affidavit from Blaisdell and Sons to the effect that an error was made in their Proof of Completion of Work, and Application of Water to Beneficial Use and that the intention at the time was for only proving up on lands in the NW $\frac{1}{4}$ of Section 24, in place of all the holder's filed on, we can allow the 2.04 cubic feet per second as found by our engineer as being the flow of the well at the time inspection was made, said water can be made appurtenant to the NW $\frac{1}{4}$ only, leaving the SE $\frac{1}{4}$ and the E $\frac{1}{2}$ SW $\frac{1}{4}$ out of the picture. The affidavit should state that Blaisdell and Sons had no interest in the E $\frac{1}{2}$ SW $\frac{1}{4}$ and the SE $\frac{1}{4}$ of Section 24.

825821

Ray & Scott

-3-

November 20, 1957

The statutory fee in this case, if the water should be made appurtenant to the NW¹/₄ of Section 24 only, would be as follows - five dollars for the Completion of Works Proof and two dollars for each 40 acre subdivision, which is four, making a total of eight dollars for license fee, which would be a grand total of thirteen dollars in place of the twenty-five as billed you under our letter of September 25, 1957.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G-25821
J. E. Blaisdell & Sons

Dear Mrs. Rutledge:

On September 25, 1957, you wrote to Thereon L. Blaisdell informing him that Certificate of Completion of Works and License would issue in connection with the above permit upon payment of the statutory fees of \$25.00.

On October 8, 1957, I wrote to your office concerning the withdrawal of all of the land in connection with the permit except 150 acres in the NW $\frac{1}{4}$ of Sec. 24, Tp. 14 S. R. 35 EBM, by reason of the assignments that have been filed in your office in connection with the above permit. Because of the withdrawal of this land, I figured that the statutory fees would be reduced to \$13.00, as there would be only 150 acres covered under the permit.

On October 30, 1957 Mr. Thompson wrote to me, and I believe that he has mis-understood my letter. Would you kindly check the cost of the issuance of the Certificate of Completion and the license, and advise me again?

Thanking you, I remain,

Ray & Scott

By *E. H. Scott*

H25821

State of Idaho
County of Oneida, ss

Nolan Blaisdell being first duly sworn deposes and says:

That he is a member of the co-partnership John E. Blaisdell & Sons, residing in Oneida County, Idaho; that the said John E. Blaisdell & Sons, a co-partnership is the owner and holder of State of Idaho Water Permit No. G-25821.

That an error was made in the Proof of Completion of Works and Application of Water to Beneficial Use now on file in the Department of Reclamation of the State of Idaho, in that said Proof provides that the water to be used on other land than the NW $\frac{1}{4}$ of Sec. 24, Tp. 14 S. R. 35 E.B.M., when in fact, said water is used solely upon the NW $\frac{1}{4}$ of said Sec. 24, and that said Permit Holder, John E. Blaisdell & Sons, has no interest in or claim to ownership of the other lands mentioned in said Proof, namely, the E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of said Sec. 24.

That the amount of water claimed and used upon the said NW $\frac{1}{4}$ Sec. 24, Tp. 14 S. R. 35 EBM, is 2.04 cubic feet per second.

And further affiant sayeth not.

October 30, 1957

Re: Permit No. G-25821
J. E. Blaisdell & Sons

Ray & Scott
Attorneys
Malad City, Idaho

Attention: Mr. E. L. Scott

Dear Mr. Scott:

In answer to your letter of October 8th relative to the fees in connection with the above stated permit, the records in this department discloses that assignments were recorded whereby J. E. Blaisdell is listed as sole owner of the permit by assignment on record from co-partners.

Section 42-221, Idaho Code, states that five dollars is the fee for Completion of Works Proof and a fee of two dollars for each 40 acre sub-division examined by this department for Beneficial Use Proof where the right is for irrigation purposes.

As far as the fee is concerned for making Completion and Beneficial Use Proofs, the fee would be the same if the permit is in the name of one individual or a group of individuals.

We hope this answers your inquiry.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G 25821
J. E. Blaisdell & Sons

Dear Mr. Kulp:

Your letter of September 25, 1957 is before me, directed to Mr. Thereon L. Blaisdell in connection with the issuance of license in connection with the above permit.

In this regard, all of the land, save 150 acres in the NW $\frac{1}{4}$ of Sec. 24, Tp. 14 S. R. 35 EBM, was withdrawn by the owners from the coverage of the above permit by assignments executed by Paul Mills, et ux, Milton T. Jones, et ux, and Oscar Larsen, et ux, to the Blaisdells. These assignments were filed with your office in the earlier part of this year.

Would you check your records in this regard and advise as to the correctness of the above information. If this is true, the cost of the license would be reduced by approximately \$12.50.

Thanking you, I remain,

Very truly,

Ray & Scott

J. E. Blaisdell & Sons

Mr. Theron L. Blaisdell
Route # 1
Malad City, Idaho

Dear Mr. Blaisdell:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-25821 shows that your well is capable of conveying 102 miner's inches (2.04 c.f.s.) of water for irrigation of 400 acres. This permit is now entitled to the Certificate of Completion of Works and the License and Certificate of Water Right.

Upon receipt of the statutory fees, total of \$25.00, we will issue to J. E. Blaisdell & Sons the Certificate of Completion of Works (for which the fee is five dollars) and the License (twenty dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of June 21, 1955, to the use of 2.04 second feet of subterranean water with the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 24, for irrigation of 400 acres in the NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ of Section 24, Township 14 South, Range 35 East, B.M.

**NOTICE OF PROOF OF COM-
PLETION OF WORKS and
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at
10:00 A.M. on the 16th day of
January, 1957, at Malad City,
County of Oneida, State of Idaho,
before Bill Fallis, Probate Judge,
proof will be submitted of the
completion of works for the di-
version of 7.40 cubic feet per
second of underground waters
from a well, and of application
to beneficial use of said water,
in accordance with the terms and
conditions of Permit No. G-25821
heretofore issued by the Depart-
ment of Reclamation of the State
of Idaho.

1. The name and postoffice ad-
dress of the person or corpora-
tion holding said permit are J. E.
Blaisdell & Sons, 524 North 300
West, Malad City, Idaho.
2. Said works of diversion will
be fully completed on the date
set for such completion, and the
amount of water which said
works are capable of conveying
to the place of use is 7.40 cubic
feet per second.
3. The use to which said water
has been applied is irrigation
purposes, and the amount applied
to beneficial use is 7.40 cubic
feet per second.
4. The point of diversion of
said water is NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec.
24, Twp. 14 S., Rge. 33 E., B.M.
5. The place where said water
is used is NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$
all in Sec. 24, Twp. 14 S., Rge. 33
E., B.M.
6. The date of priority which

State of Idaho,
County of Oneida,

ss.

Bill Fallis, of lawful age, being first duly sworn upon oath deposes says: That he is the Probate Judge before proof of the completion of works and application of water to beneficial use was to have been taken by J. E. Blaisdell & Sons at 10:00 o'clock a. m., on January 16, 1957, but they did not make proof on that day; that the Office of the Probate Judge was opened all day on January 16, 1957 for any business that might come into the office for transaction; that no one appeared to protest to this matter at any time during the day of January 16, 1957.

Bill Fallis

On this 13th day of February, 1957 before me, _____, a Notary Public, personally appeared Bill Fallis known to me to be the Probate Judge in and for the County of Oneida, State of Idaho and known to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same.

Subscribed and sworn to the day and year in this certificate first above written.

RE: Permit No. G-25821 Department of Reclamation

Gentlemen:

We have received the notice for publication on the aforementioned permit and it will appear in our issues of Dec. 13-20-27 and Jan. 3.

On the advice of Attorney E. L. Scott we have changed the name of the person before whom it will be heard to "Bill Fallis, probate judge" instead of Atty. Scott.

Very truly yours,

Marion Hanson

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 16th
25th
day of January, 1957~~1956~~, at Malad City, County
of Oneida, State of Idaho, before
Ed. Scott, Notary Public, proof will be submitted of the completion
of works for the diversion of 7.40 cubic feet per second of underground
waters from a well, and of the application to beneficial use of said water, in
accordance with the terms and conditions of Permit No. G-25821 hereto-
fore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding
said permit are J. E. Blaisdell & Sons, 524 North 300 West Malad City, Idaho

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of
conveying to the place of use is 7.40 cubic feet per second.

3. The use to which said water has been applied is
Irrigation purposes, and the amount applied to beneficial use is
7.40 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ of Sec. 24., Twp. 14 S.,
Rge. 33 E., B.M.

5. The place where said water is used is NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ all in Sec. 24.,
Twp. 14 S., Rge. 35 E., B.M.

6. The date of priority which said user is prepared to establish is
June 21, 1955.

RE: Permit No. G-25821

Mr. J. E. Blaisdell
524 N. 300 West
Malad City, Idaho

Dear Mr. Blaisdell:

● We enclose Permit No. G-25821 in the name of yourself and others and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

You will note that we have changed the location of the well to the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 24, Township 14 South, Range 35 East B.M. in accordance with your telephone request.

We also enclose departmental receipt No. G-1368 for the \$6.75 filing fee.

Very truly yours,

MARK R. KULP, STATE RECLAMATION ENGINEER
BOISE

June 30, 1955

Mr. J. E. Blaisdell
524 N. 300 W.
Malad City, Idaho

Dear Mr. Blaisdell:

We acknowledge receipt of the Application of yourself and others to appropriate $2\frac{1}{2}$ second feet of water from a well accompanied by your check for the \$5.00 filing fee.

However, the land description in question 12 does not agree with the sketch map. If we understand the sketch map correctly, J. E. Blaisdell owns 130 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{4}$ NW $\frac{1}{4}$, and S $\frac{1}{4}$ NW $\frac{1}{4}$ Section 24.

P. H. Mills owns 80 acres in the E $\frac{1}{4}$ SW $\frac{1}{4}$ Section 24.

Oscar Larsen owns 40 acres in the N $\frac{1}{4}$ NE $\frac{1}{4}$ Section 24 and Milton T. Jones owns 100 acres in the S $\frac{1}{4}$ NE $\frac{1}{4}$ and S $\frac{1}{4}$ SE $\frac{1}{4}$ Section 24.

This would make a total of 370 acres instead of the 240 acres described in question 12. For that reason the Application could be made for 370 inches or 7.4 cubic feet per second as the statutes allow one inch per acre of the land to be irrigated.

The filing fee for that amount would be \$6.75 or an additional \$1.75.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

**NOTICE OF PROOF OF COM-
PLETION OF WORKS and
APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 10:00 A.M. on the 16th day of January, 1957, at Malad City, County of Oneida, State of Idaho, before Bill Fallis, Probate Judge, proof will be submitted of the completion of works for the diversion of 7.40 cubic feet per second of underground waters from a well, and of application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-25821 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are J. E. Blaisdell & Sons, 524 North 300 West, Malad City, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 7.40 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 7.40 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 24, Twp. 14 S., Rge. 33 E., B.M.

5. The place where said water is used is NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ all in Sec. 24, Twp. 14 S., Rge. 35 E., B.M.

6. The date of priority which said user is prepared to establish is June 21, 1955.

MARK R. KULP
