MEMORANDUM

TO: Files 61-00345, 61-00347, 61-02007 & 61-02052

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5231

DATE: May 5, 1999

Transfer 5231 adds a point of diversion under Rights 61-00345, 61-00347, 61-02007 & 61-02052. The applicant wants to add a pump to use during low water years when the gravity flow diversion is not efficient.

These rights have been reviewed and recommended by the SRBA staff and the transfer approval is based on these recommendations. The decreed rights were limited to the number of acres claimed under each right which was less than the originally described parcels in the decree. Season of use and diversion volume was adjusted to current standards.

No watermaster comment was requested by region staff prior to forwarding the transfer to the state office. The approval will be held until the comment is received.

Recommended conditions include Basin 61 conjunctive management, watermaster control, multiple points of diversion/measuring devices & lockable controlling works, permissible place of use limits, combined right limits, irrigation overlap and standard transfer conditions.

I have just been to Mr. McSinnis

ranch and the 160 as shown in the report 1/4 of sec 30.

there is about 140 acres under the ditch. he has 55 acres under cultivation as shown by the eng. report. the

rest of the 140 or 85 acres is used for pasture. and is all Alkali ground. Mr. McSinnis has plowed up about

8 or 10 acres of this alkali ground and sowed it into oats twice but the alkali was so strong it wouldn't come up. he then planted it into rye with the same result. It was found that on plowing the ground it spoilt it.

because the alkali would all come to the surface.

It was also found that by irrigating the natural ground it made a good blue grass pasture.

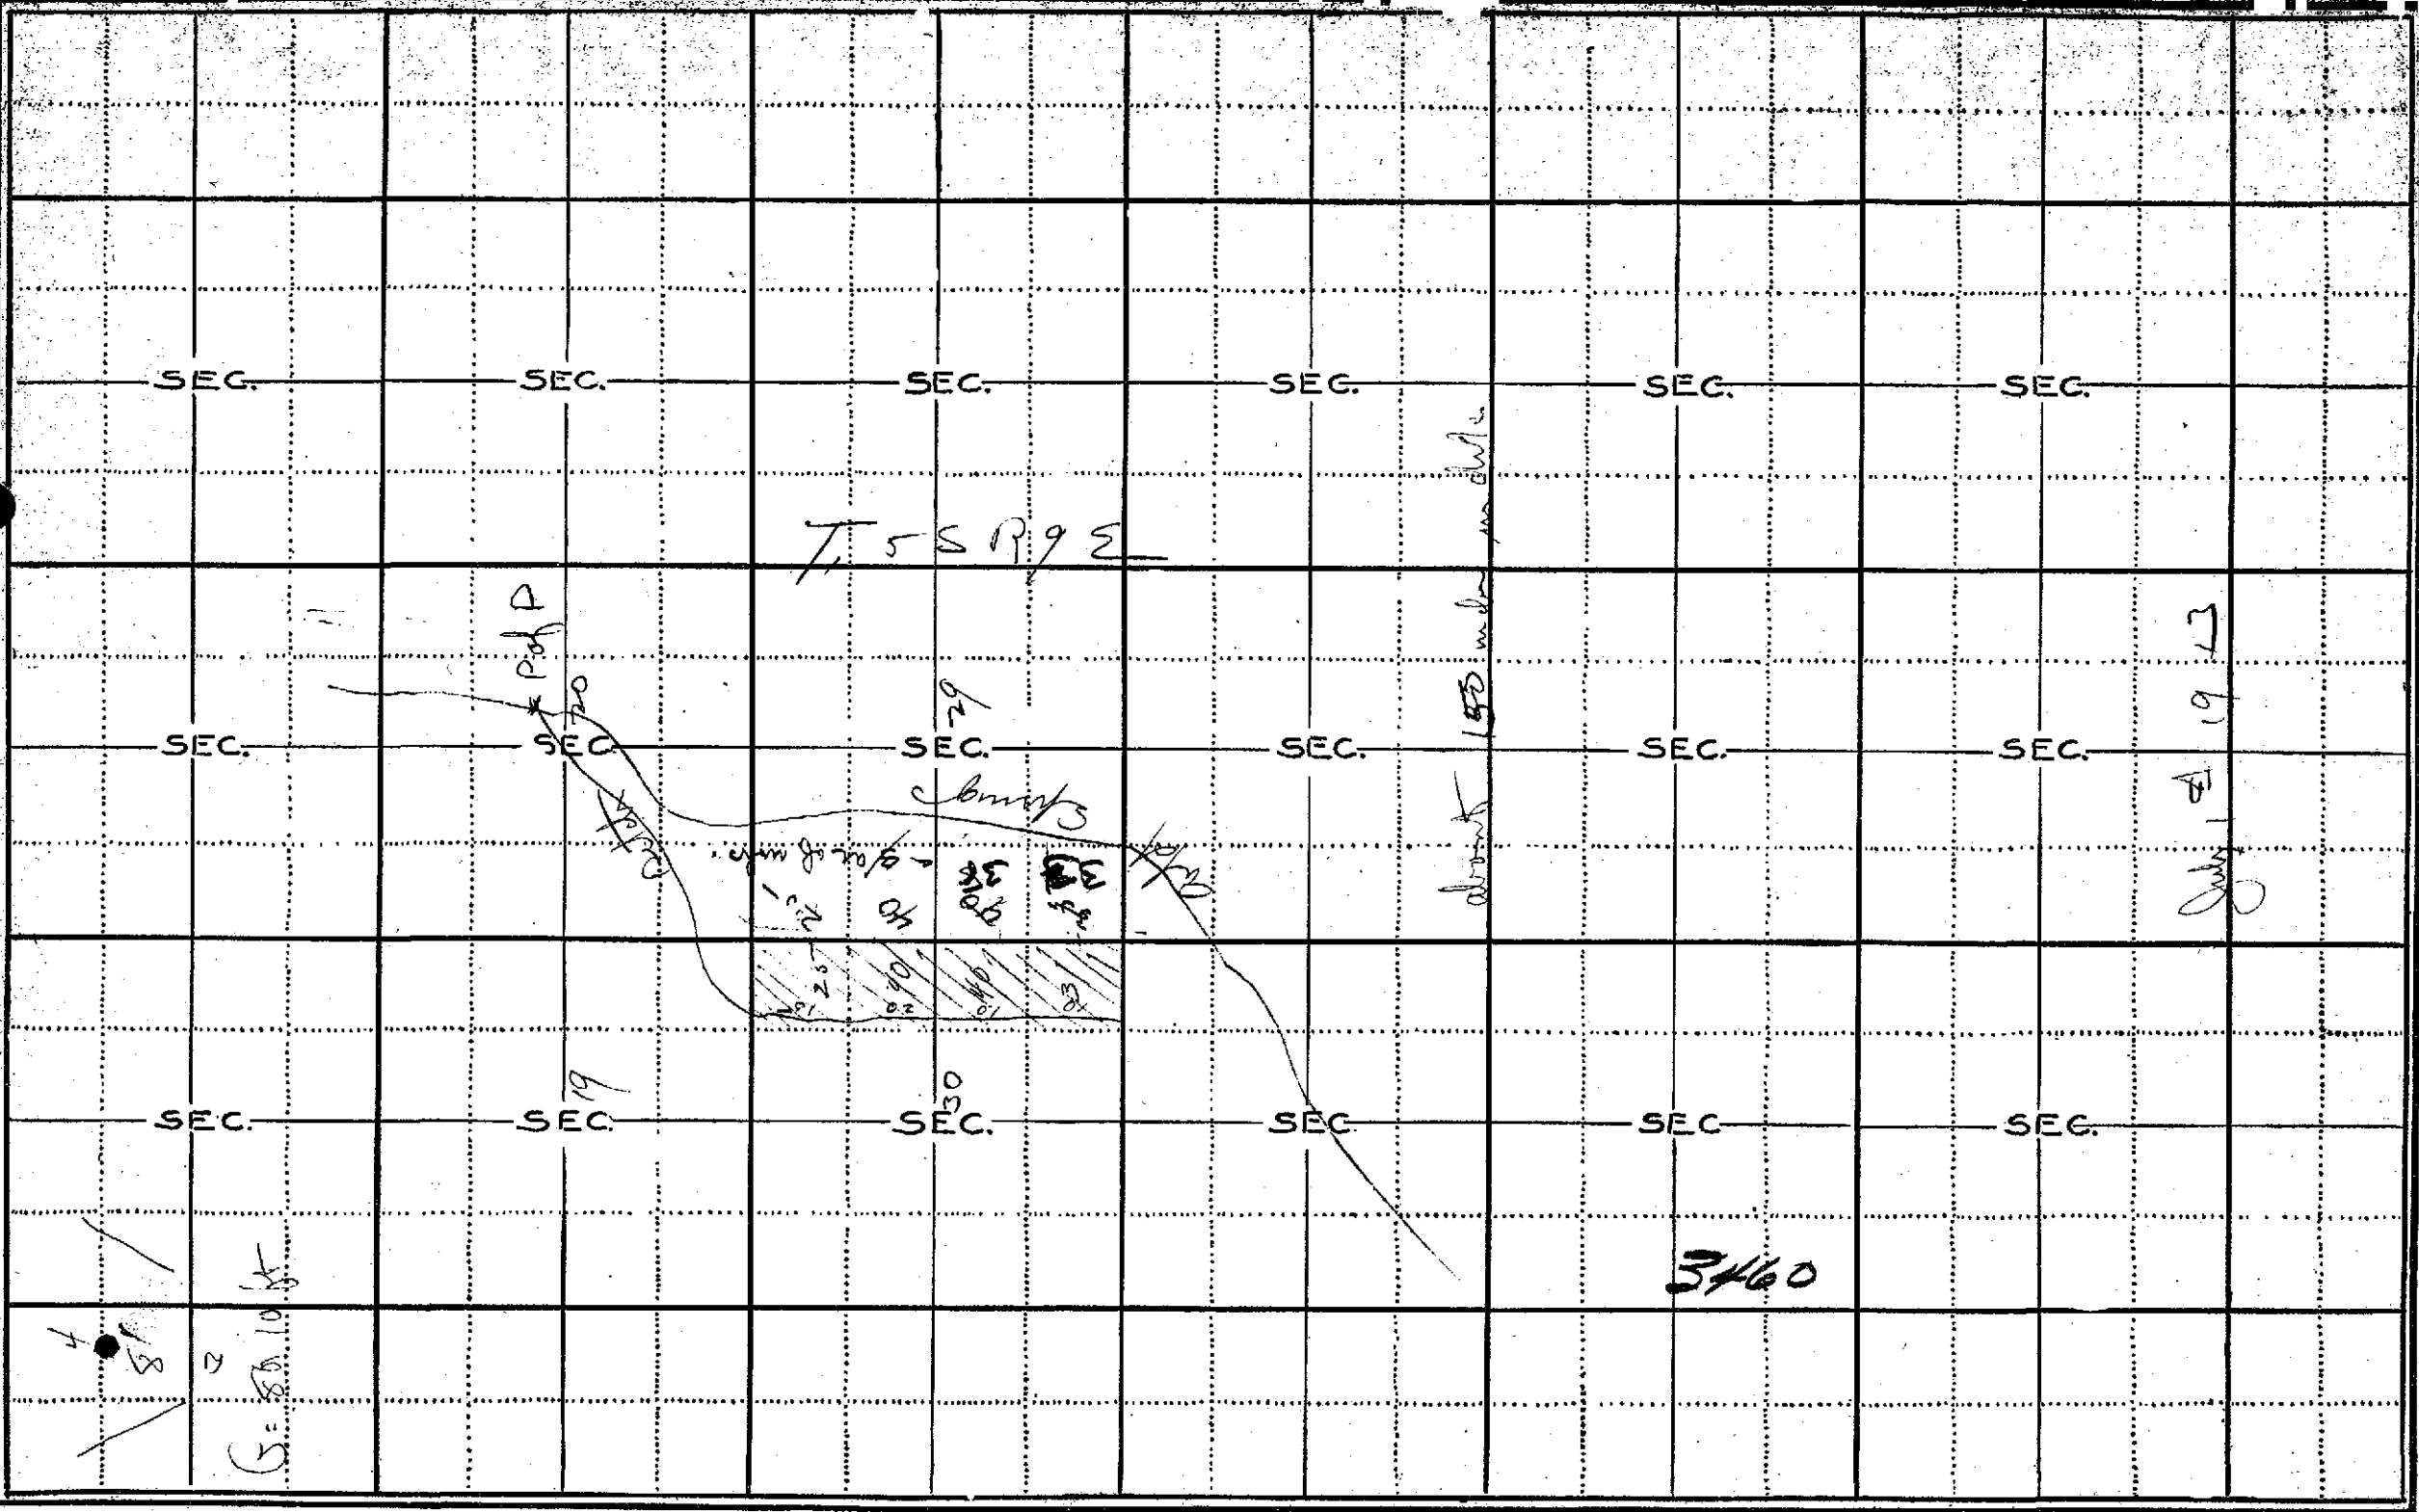

the 85 acres is at present with the exception of a few small sand hills and high mounds which would aggregate about 4 or 5 acres the rest of the

85 acres of alkali ground is, about 80 acres is in good pasture land, and it is the best Mr. McSinnis can do with it. The Land Office has written to Mr. McS.

that unless he can show title to the water for the whole 140 acres which lies under the ditch. his filing will be canceled in 30 days. Can you advise him what to do in order to gain title to the water or have his d. o. t. 1100A R. 14. 11
