Bruneau, Idaho

(Name)

(Mailing Address)

herein called Customer, agrees to receive and pay for, and IDAHO POWER COMPANY, herein called Company, agrees to supply electric service to the amount of 100 hp, in the form of Three phase alternating current at approximately 60 cycles per second and 440 volts, for Customer's Pumping operations, at or near Bruneau, in Owyhee County, State of Idaho for a term of Ten (10) year(s) from and after the beginning of the irrigation season, 19 69, in accordance with and subject to the Company's rules and regulations and Schedule No. 24, as now or hereafter in effect at the time of delivery of service. The point of delivery of power shall be where the Company's wires or apparatus are connected with those of the Customer at or near SW 1/4 of Section 25 T. 6S R. 4E M. Boise

All payments shall be made at Company's office at Mountain Home, Idaho. The Customer agrees to pay, regardless of the amount of power actually consumed, the minimum charges as provided in the rate schedule, rules and regulations applicable to service hereunder. A copy of the rate schedule and the rules and regulations as now in effect are attached hereto as part of this agreement.

In consideration of the special investment to be made by the Company in extending its lines and facilities to supply the Customer's pumping power service requirements, Customer guarantees a minimum annual* payment in the amount of \$ 1,300.00 to the Company during the term of this contract, such annual minimum to run with the land and pumping power service hereinabove referred to and to be payable by the Customer's successors or assigns as a condition of service during the term of this agreement.

*The annual period hereunder shall be the twelve month period beginning March 1 of each year.

Bruneau, Id 83604

We are now computing the amount of your irrigation use for the current season so that you may know the amount of your irrigation advance payment.

Based on your past use, we estimate your billings for the ensuing irrigation season, less tax refund, to be \$ 3100.00.

You may wish to arrange your financing for irrigation service on a seasonal basis, thus avoiding the necessity of monthly attention to payments. If so, then the above estimate would be the amount required as the advance at the beginning of the season.

Because you have paid your irrigation billing promptly in the past, you have the privilege of selecting monthly rather than seasonal financing of your irrigation pumping service. Under this plan, it will only be necessary for you to advance \$ 750.00, which is equal to one month's maximum billing. A statement will be rendered each month and it is agreed that you will make payment within ten days from the date of mailing. This method of financing is designed to reduce your cash payment at the beginning of the season while protecting your present low irrigation rate from any increase due to losses from uncollectible accounts.

Regardless of which plan you choose, it will be helpful if you will notify us a week in advance of the day you wish to start pumping. We appreciate that the spring season is a busy one for you and we will welcome every opportunity to be of help in connection with the use of our service.

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Kent G. Kohring, Bruneau, Idaho 83604 has received an approved Permit No. 32826/51-2214 issued by the Idaho Department of Water Administration authorizing the diversion of 6.4 cubic feet per second of water from a ground water source. The priority to be established under this permit is April 11, 1966 and the permit was approved April 12, 1966.

Water is to be diverted by well, casing, and ditches from a point within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, Twp. 6 S., Rge. 4 E., B. M., Owyhee County, to be used for irrigation purposes in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24; N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, Twp. 6 S., Rge. 4 E., and in the NW $\frac{1}{4}$, Sec. 30, Twp. 6 S., Rge. 5 E., B. M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before October 18, 1976. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

R. KEITH HIGGINSON,
Director.

Published in the Owyhee Nugget, Marsing, Idaho on October 28, 1976 and November 4, 1976.

Your desert land application for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 352 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to the Act of July 17, 1914, which will require the reservation of all oil and gas deposits to the United States.

WATER RIGHT LICENSE

License of Water Right No. 51-2214 Priority April 11, 1966 Amount 4.04 cfs

THIS IS TO CERTIFY, that Kent G. Kohring
of Bruneau, Idaho, has complied with the terms and conditions of Permit
No. 51-2214 issued pursuant to Application for Permit dated April 11, 1966,
and has submitted proof to the Department of Water Resources on October 14, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 4.04 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u>	at <u>4.04</u> cfs and	<u>1560.0</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 4.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1560.0 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 25, Twp.
6S, Rge. 4E in the County of Owyhee

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$

		25	39	38			37												114
6S	5E	30					40	40	40	40									160

Total number of acres irrigated 312

This right when combined with all other rights shall provide no more than 0.02
cfs per acre nor more than 5.0 afa per acre for the lands above.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 4th day of
December April, 19 83.

Director

OF THE

STATE OF IDAHO

IN THE MATTER OF EXTENDING THE PROOF DUE)
DATE IN CONNECTION WITH PERMIT NO. 32826/)
51-2214 in the name of KENT G. KOHRING)

ORDER

WHEREAS, on April 11, 1966, Kent G. Kohring applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 6.4 cubic feet per second of water from a ground water source within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, Twp. 6S, Rge. 4E, B.M., Owyhee County, to be used for irrigation purposes; and,

WHEREAS, on April 12, 1966, the Department approved said application and issued Permit No. 32826/51-2214 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before April 12, 1971; and,

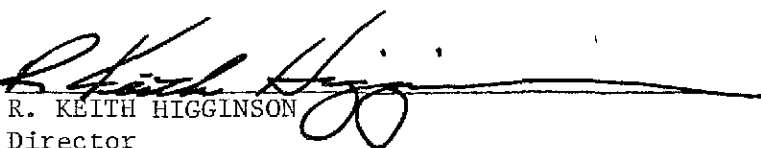

WHEREAS, on December 21, 1970, the Department extended the time within which to submit proof to October 18, 1973, pursuant to Section 42-204, Idaho Code; and,

WHEREAS, on October 1, 1973, the permit holder submitted a request for an additional extension of time; and,

WHEREAS, it appears that under the circumstances, the permit holder has been proceeding with reasonable diligence and has given good cause for delay;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 32826/51-2214 be extended to October 18, 1976.

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Kent G. Kohring, Bruneau, Idaho 83804 has received an approved Permit No. 32828/51-2214 issued by the Idaho Department of Water Administration authorizing the diversion of 6.4 cubic feet per second of water from a ground water source. The priority to be established under this permit is April 11, 1966 and the permit was approved April 12, 1966.

Water is to be diverted by well, casing, and ditches from a point within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, Twp. 6 S., Rge. 4 E., B. M., Owyhee County, to be used for irrigation purposes in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24; N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, Twp. 6 S., Rge. 4 E., and in the NW $\frac{1}{4}$, Sec. 30, Twp. 6 S., Rge. 5 E., B. M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before October 18, 1976. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

R. KEITH HIGGINSON,
Director.

Published in the Owyhee Nugget, Marsing, Idaho on October 28, 1976 and November 4, 1976.

Please review this file - If you concur with my conclusion - Please return and we will request W. Reagon to make a measurement of both wells - Mr Kohnig would if possible like the measurement made as soon as possible.

I agree that the remeasurement should not be made in September.

SUBJECT

- The exam w/related lic on this permit has a long history.

- From info now available, it appears a re-exam (for 3rd time) may be in order.

- Note that we did receive a response to our 2nd today letter, but a lic was still issued.

- In view of Swan Falls & the info recently provided, it appears a re-exam may be appropriate if

Kohring would agree in writing prior to the exam that he would accept the results.

- Plz review file together w/more recent info not available when the decision to issue the lic was made.

- We can discuss it, if you wish.

- Observe.

- There is no evid to show that water from well in Sec 36 was used on land int from well in Sec 25 although it could be done per ditch system existing.

November 1, 1983

Kent G. Kohring
Star Route B, Box 140
Bruneau, ID 83604

Dear Mr. Kohring:

This letter is written as follow-up to your request for a re-examination of water right No. 51-2214.

First, I would like to thank you for your cooperation in providing all of the supporting information concerning the operation of the well located in Section 25. We have made, as you know, a careful review of the documents that were provided. Also included in our review of your permit was an examination of aerial photos taken of your land during the years of 1977, 1978, 1980 and 1983. As a result of this review we find that the 160 acres located in the NW $\frac{1}{4}$ of Section 30, Twp. 6S, Rge. 5E were not irrigated prior to the proof to beneficial use date of October 18, 1976. However, when the field examiner made the field exam in September, 1980, this land was found to be irrigated and therefore included on the license issued in April of 1983.

At this time there are two options; we can pursue your request to measure the second well in Section 25 and amend the license to add the second point of diversion, or leave the license as issued.

If the license was amended, the Department would not have any alternative but to remove the 160 acres in the NW $\frac{1}{4}$ of Section 30. This would leave 200 acres on the license and the maximum amount of water would be limited to 0.02 cfs per acre or 200 acres x 0.02 cfs which would equal 4.0 cfs. This is less than what the license presently is issued for, which is 4.04 cfs. Therefore, even if the point of diversion in Section 25 was added, no additional water could be given on the license.

It appears that your best option would be to leave the license as issued. You could file a transfer if you desired, to add the point of diversion in Section 25, however, the amount of the license would stay at 4.04 cfs.

Kent G. Kohring
November 1, 1983
Page 2

This completes the Department's review of this matter. If you have any questions, please let me know. It has been a pleasure working with you and I am sorry that things did not prove to be more favorable. If you would like ~~to~~ to return any of the items that you provided, please let us know.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

FROM: Jim

RE: Request to REMEASURE IRRIGATION
SYSTEM.

A REVIEW OF THE BOATH POWER RECORDS ATTACHED WITH MR. KOHRING'S letter substantiates MR. KOHRING'S position that he was using an additional well in the SW $\frac{1}{4}$ of Sec 36 prior to the proof to beneficial use date of 10-18-1976.

I believe MR. KOHRING has also provided an adequate explanation of the events which caused this non request to measure the second well located in the SW $\frac{1}{4}$ of Section 36. It appears that MR. KOHRING simply believed that the flow from the one well in Section 25 would be sufficient for permit 51-2214 and did not think to inform the Department's field examiner of the second well on either examination.

Also, both exams were made after the peak irrigation demand and both wells were not being used at the time.

It appears that MR. KOHRING is entitled to have another field examination of his system.

Bruneau, Id.

June 17, 1983

RECEIVED

JUN 20 1983

Mr. Jim Johnson

Water Distribution Supervisor

Dept. Of Water Resources

State Office, 450 W. State St. Boise, Id.

Dear Mr. Johnson:

I am supplying some information and documents to help me amend my water right no. 51-2214, to include a second diversion point located in the S.W. Corner of Sec. 36 T6S R4E. You stated this was possible if I could show cause, need, and proof under the law.

Let me state first that I need the additional measurement for my D.E. filing.

Identified
on rt. 51-2214

I have had alot of problems with the well at the original diversion point in section 25 T6S R4E that have set up the circumstances for this request. The well was originally drilled in 1968-69 and was used, without incident, for most of three seasons. It was a good producer, with some artesian pressure, and produced adequate water with a 100 HP pump. During the season of 1973, however, I lost the bottom of the well due to an excessive number of "power bumps" which caused surges, which in turn pulled in "black sands" that filled about 800 ft. of the 1900 ft. well. I was not able to get a driller immediately, so to save my crops, in 1974 we placed a 50 HP pump on an abandoned well in the SW corner of Sec. 36 T6S R4E to supplement the reduced yield of the well in Sec. 25. The supplementary well water reached my property through the main canal

shared in common with my father. I had the sand
cleaned from the well twice, but each time it came in
again. I eventually had to put in more casing
to correct the problem. From 1974 to the present
time, I have used the supplementary well in sec. 36
because most of the time the well in sec. 25 was
giving me trouble. With the well finally repaired,
I had hoped it would show an adequate measurement.
It did not, however, due probably to a loss in head
pressure caused by additional wells being put down
in the area in the intervening years. I was
considering asking you if I could put on additional
H.P. on the well in sec. 25 to get the measurement I
needed, when I thought it might be possible to
get my permit amended to include the well in
sec. 36. I did not know if this was possible when
the department made the measurement of the well in
section 25, so I did not ask the Technician to do so.
The 50 HP pump at Sec 36, coupled with the 100 HP.
pump at Sec. 25, is more cost efficient than a
larger pump would be at sec. 25. It allows us
to be more selective of our power needs at
various times during the season.

I have enclosed Idaho power records which
I have numbered 1 to 4 for proof of use
and need during the time in question.

#1 - Shows power for 100 HP in sec. 25
(2310-1) for 1969 season.

#2 - shows addition of 50 HP pump in sec. 36
(2066-8) being added for the 1974 season with
notes of season, being (2310-1) needed repair.

#3 - Show that I was pressurizing the water from the wells with a sprinkler system on my property (2328-1) during the 1974 season.

#4 - Shows that I was using the three pumps during the 1975 season (2066-8, 2310-1, 2328-1)

I am also enclosing a map showing the irrigation system for the ³¹²320 A. irrigated under water right No. 51-2214.

If you have any further questions please contact me.

Sincerely Yours,

Kent Kohring

We are now computing the amount of your irrigation use for the current season so that you may know the amount of your irrigation advance payment.

Based on your past use, we estimate your billings for the ensuing irrigation season, less tax refund, to be \$ 3100.00.

You may wish to arrange your financing for irrigation service on a seasonal basis, thus avoiding the necessity of monthly attention to payments. If so, then the above estimate would be the amount required as the advance at the beginning of the season.

Because you have paid your irrigation billing promptly in the past, you have the privilege of selecting monthly rather than seasonal financing of your irrigation pumping service. Under this plan, it will only be necessary for you to advance \$ 750.00, which is equal to one month's maximum billing. A statement will be rendered each month and it is agreed that you will make payment within ten days from the date of mailing. This method of financing is designed to reduce your cash payment at the beginning of the season while protecting your present low irrigation rate from any increase due to losses from uncollectible accounts.

Regardless of which plan you choose, it will be helpful if you will notify us a week in advance of the day you wish to start pumping. We appreciate that the spring season is a busy one for you and we will welcome every opportunity to be of help in connection with the use of our service.

We are now computing the amount of your irrigation use for the current season so that you may know the amount of your irrigation advance payment.

We have estimated the amount of your billing for the current season, based upon past use, less tax refund, to be \$ 5750.00. This, then, is the amount of your season advance and is required prior to the date you want service connected to your pumping installation.

It is our sincere desire to have service available when needed and it will be very helpful if you will notify us a week in advance of the day you wish to start pumping. This service contemplates one free connection and disconnection accomplished during normal business hours. In the event the customer requests a connection or disconnection that must be made at other than normal business hours, or an extra connection or disconnection, the cost of this extra service requested by the customer would be paid by him.

We appreciate that the spring season is a busy one for you and we will welcome every opportunity to be of help in connection with the use of our service.

Yours very truly,

INTER-DEPARTMENT MEMO — 1

FROM Jim

DATE June 6, 1983

TO File

SUBJECT Mr. Kohring came in to the office to discuss items needed to prove that the well in SW $\frac{1}{4}$ sec. 36 T6S R4E. had been in use prior to him submitting proof to beneficial use and to show that said water was used on the lands identified on this pt.

He will supply Idaho power records, copy of well logs, if available, drawing of delivery system, and an explanation of sequence of events as to the ~~the~~ reason why the second well should be added to the license.

SIGNATURE

May 31, 1983

Kent G. Kohring
Star Route B, Box 140
Bruneau, ID 83604

Dear Mr. Kohring,

We are in receipt of your request for remeasurement of the well identified under tag No. 51-2214.

Before the Department will consider making a third remeasurement of the water being under this right, we must be convinced that the measurement already made ~~one~~ is in error. The Department will not issue a water right for more water than was in use at the time that you submitted your proof to beneficial use statement.

A review of your water right file shows that no mention is made of you using a second well to supply water to the lands identified under this permit until our discussion on December 12, 1982. The proof to beneficial use statement you submitted on October 14, 1976 under item seven (copy enclosed) makes no mention of you using more than one well nor does the field examiner notes when the exams were made on your system on September 22, 1980 and September 9, 1981.

The statement provided by Mr. Unrub only states that you have been using the well located in the SW corner of Section #6 T6S R4E since he has been there starting March 1981.

It does not show that you were using the well when the proof to beneficial use was submitted in 1974 nor does it confirm that water from the well has been used on the lands identified under your permit.

The Department would consider a well log, proof of purchase of the 50 hp pump, pipeline, copies of power bills etc., which clearly, shows that the well has been in operation in 1974 and that the water from the well has been used on the said level.

Without this evidence the Department cannot amend the license as issued.

Please provide said evidence on or before June 30, 1983 so that we can schedule another examination this summer to ~~the~~ ~~matter~~ this matter.

If you have any questions please let me know.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

MAY 16 1983

DEPARTMENT OF WATER RESOURCES

State Of Idaho
Department Of Water Resources
Statehouse
Boise, Idaho 83720

Attn. Jim Johnson - Water Distribution Supervisor

Dear Mr. Johnson,

I am submitting a formal request for remeasurement of my water right No. 51-2214 as you suggested, since the Department had already issued a license. I believe that we had an agreement that this could be done if it was within your regulations.

The problem, as you suggested, seems to have been because of a difference in what you thought I was requesting, and got down in your notes, and what I thought I had made clear to you.

For the record, Basically I was disappointed in the measurements of the well in Sec 25 6346. I'm sure it had been better, but with additional wells in the area, the natural head pressure had dropped.

In reference to your letter of Apr. 26 1983. In the first paragraph, you refer to the second well I wish to include in the measurement as not being in use. This is in error and I'm inclosing a witnesses statement to that fact.

In addition, I need all of the allowed water right for permit no. 51-2214 for the 320 acres under cultivation.

If you need any additional information, please let me know.

Sincerely Yours,
Kent Kohring

Not VERY
USEFUL SINCE
USE OF SECOND
WELL
HAS TO BE
ESTABLISHED
BEFORE
10-18-1976 J.S.

To Whom it may Concern.

I have been living on the property of Kent
Kobring at the South West corner of section 36 T5 6S 4E
since March of 1981. The well with the 50 h.p. pumps,
located at that point, was there and in operation at
that time and has been so since.

Leonard Urush

CONVERSATION MEMORANDUM

DATE 5-10-83

FILE 51-2214

NAME OF PARTY Mr. Kohring

EMPLOYEE Jim Johnson

RE: Mr. Kohring called in reference to
my 4-26-83 letter.

He stated that the second well
was in fact in use and had been in use
since 1974.

where?

Mr. Kohring said that the well was
not in use at the time of the two field
exams but had been in use earlier in
the season.

He said that he only mentioned
needing the additional water for gravity
irrigation because he was thinking about
changing methods of irrigation if he
continued to have problems with the well
the Dept. had measured. He did not mean to
infer that his second well was not
being used.

I explained to him that he would
have to make a formal request for
amending the license to add the second
well and state the reasons why he felt
the said well should be added.

April 26, 1983

RE: Water Right No. 51-2214

Kent G. Kohring
Star Route B, Box 140
Bruneau, ID 83604

Dear Mr. Kohring:

Enclosed is a copy of License 51-2214. You will note that the license contains the point of diversion located within the SW 1/4, Section 25, Twp. 6S, Rge. 4E and does not include the second well which I understand is connected to your irrigation system but is not in use.

Provisions in the Idaho Code require that a licensed water right be issued to the extent that the water is actually being used. Since the second well is not required to supply water to the irrigated lands utilizing your present system the licensing of your water right cannot include the unused well.

If, in the future, you find that you must convert back to flood irrigation and require water from the second well, you can then file for an application for water permit to cover the additional use.

If you have any questions please let me know.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

JJ:kw
Enclosure

Memorandum

To: 51-2214

12/28/82

From: David Shaw

Subject: Second re-exam requested by 12/14/82 Memo

I discussed this memo with Jim Johnson and he recalled Mr. Kohring told him a second well was indeed connected to this system but had not been used on the 312 acres covered by this permit. Mr. Kohring wanted to have the additional well measured and added to the capacity for this license in case he, in the future, needed additional flow to return to gravity irrigation methods. I discussed this with Bob Fleenor and we agreed this license could only be issued for the use as it exists now. If in the future additional flow is required an additional filing will be required.

Based on this information I recommend the license be issued as proposed and another exam not be made.

The basis for not including the second well should be spelled out to Mr. Kohring, either in the cover letter for the license or Jim may want to re-contact him directly.

water from second well was also used on other lands besides the 312 acres J.J.

Mr. Kohring had mentioned this point, but also he noted that during peak irrigation periods both wells were being used. J.J. see 5-10-83 memo

CONVERSATION MEMORANDUM

DATE 12-14-82FILE 51-2214NAME OF PARTY Kent G KohringEMPLOYEE Jim Johnson

RE: The above came in to discuss his situation and to see if he could amend this permit by adding another well which is in operation and is interconnected ~~for this~~ to the system described under this permit.

AFTER REVIEWING the matter it appears that a measurement is needed on the second well and confirmation documented by a field exam that the second well is in fact connected to the delivery system served by the well in SW NW SEC 25, T6S R4E. The permit holder stated that second well had been ~~key~~ tied into the system prior to him submitting the proof to beneficial use statement.

IF possible the field examiner should confirm this also.

RE: Permit No. 51-2214

Kent G. Kohring
Star Route B, Box 140
Blaine, ID 83604

corrected
Dear Mr. Kohring:

A representative of this Department has made an examination of the works covered by your Permit No. 51-2214, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 4.04 cfs Source: groundwater

The maximum quantity diverted shall not exceed 1560.0 acre feet
per year.

Point(s) of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, Twp. 6S, Rge. 4E, Owyhee County

Beneficial use: Irrigation of 312 acres within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24; N $\frac{1}{2}$ NE $\frac{1}{4}$,
NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25; Twp. 6S, Rge. 4E, NW $\frac{1}{4}$, Sec. 30, Twp. 6S, Rge. 5E

Priority date established: April 11, 1966

Conditions (if any):

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

Dear Mr. Kohring,

A representative of this Department has made an examination of the works covered by your Permit No. 51-2214, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 3.85 cfs

Source: groundwater

The maximum quantity diverted shall not exceed 1560 acre feet
per year.

Point(s) of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, Twp. 6S, Rge. 4E, B.M.

Beneficial use: Irrigation of 37 acres within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24; 115 acres
within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, Twp. 6S, Rge. 4E; 160 acres
within the NW $\frac{1}{4}$, Sec. 30, Twp. 6S, Rge. 5E.

Priority date established: April 11, 1966

Conditions (if any):

If you do not concur with these findings please contact us within 10 days,
otherwise a water license will be issued as set forth above.

Sincerely,

JAN GROVER

EXISTING WATER PERMIT

Notice is hereby given that Kent G. Kohring, Bruneau, Idaho 83604 has received an approved Permit No. 32326/51-2214 issued by the Idaho Department of Water Administration authorizing the diversion of 6.4 cubic feet per second of water from a ground water source. The priority to be established under this permit is April 11, 1966 and the permit was approved April 12, 1966.

Water is to be diverted by well casing and ditches from a point within the SW 1/4, Sec. 25, Twp. 6 S., Rge. 4 E., B. M., Owyhee County, to be used for irrigation purposes in the SE 1/4, Sec. 24; N 1/2 NE 1/4, NE 1/4 SE 1/4, Sec. 25, Twp. 6 S., Rge. 4 E., and in the NW 1/4, Sec. 30, Twp. 6 S., Rge. 5 E., B. M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before October 18, 1976. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

R. KEITH HIGGINSON,
Director.

Dear Mr. Kohring:

We acknowledge receipt of the affidavit submitted as proof of publication of this permit. We also acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this exam will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field exam, please contact our Regional Office in Boise.

STAR Rt. B, Box 140

Dear Mr. Kohring:

One of the conditions of approval of your water Permit No. 51-2214 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 18, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Sir,

I am applying for a one year extension for my water permit No. 32826/51-2214. I have already received an extension for a like period of time on my desert entry. I feel this extension is justified because my well has failed and to this date I have not been able to get my driller back to clean out the well. He is currently at work on another well and has promised to work on mine as soon as he finishes the one he is currently on.

Sincerely Yours,

Kent Kohring

Re: Permit No. G-32826/51-2214

Mr. Kent G. Kohring
Bruneau,
Idaho

Dear Mr. Kohring:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Department of Reclamation

Serial No. Idaho 015503

321.10 Acres

T. 6 S., R. 4 E., Boise Meridian, Idaho
Sec. 24: ~~SE 1/4~~
Sec. 25: ~~NE 1/4, NW 1/4~~
T. 6 S., R. 5 E., Boise Meridian, Idaho
Sec. 30: lots 1, 2, ~~ENE 1/4~~

Your desert land application for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 352 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to the Act of July 17, 1914, which will require the reservation of all oil and gas deposits to the United States.

IN WITNESS WHEREOF, I have hereunto set
my hand and seal this 18th
day of October, 19 68
