NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Dudley Tucker, Idaho Falls, Idaho has on 7-20-76 submitted Application No. 35-7626 for a permit to appropriate 5.00 cubic feet per second of water from a ground-water source by means of well and pump within the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, T. 3N, R. 35E, B.M., Bonneville County; to be used from Apr. 1 to Nov. 1 for the irrigation of 320 acres within the S $\frac{1}{2}$, Sec. 10, T. 3N, R. 35E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho, 83401 on or before August 16, 1976.

WATER RIGHT LICENSE

WATER RIGHT NO. 35-7626

Priority: July 31, 1976 Amount: 3.93 CFS 1060.5 AFA

This is to certify, that DUDLEY TUCKER
RT. 8 BOX 102

IDAHO FALLS, ID 83401 has complied with the terms and conditions
of the permit issued pursuant to Application for Permit dated July 20, 1976, and
has submitted proof to the Department of Water Resources on June 25, 1981, that
water has been applied to a beneficial use; an examination by the Department indicates
that the works have a diversion capacity of 3.93 cfs of water from a GROUNDWATER
source and that a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>VOLUME</u>
Irrigation	04/01 to 11/01	3.93 cfs	1060.5 afa

LOCATION OF POINT OF DIVERSION(S): NWSE , Sec. 10, Township 3N, Range 35E
Bonneville County

PLACE OF USE: Irrigation

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
3N	35E	10	NESW 38	NWSW 33	SWSW 38	SESW 39	
			NESE 39	NWSE 38	SWSE 39	SESE 39	303

Total number of acres irrigated: 303

CONDITIONS/REMARKS:

1. The right to the use of the water hereby confirmed is limited to the amount which can actually be beneficially used and is restricted and appurtenant to the lands or place of use and to the purpose herein described, as provided by the laws of Idaho.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 22ND day
of April, 1987.

Acting for the

Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT
NO. 35-7626 IN THE NAME
OF DUDLEY TUCKER

ORDER ADVANCING
DATE OF PRIORITY

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 35-7626 for the issuance of a license, the Department makes the following Findings of Fact, Conclusions of Law, and Order pursuant to the provisions of Idaho Code.

FINDINGS OF FACT

1. On August 19, 1976 the Department approved Application for Permit No. 35-7626 to appropriate the public waters of the State of Idaho with a priority of July 20, 1976.
2. On April 30, 1986 the Department sent the permit holder a notice that a license examination fee was required before an examination could be conducted confirming the extent of use developed under the permit.
3. The fee was due on June 29, 1986, 60 days from the date of the notice; however, the fee was not received until July 10, 1986, 11 days late.

CONCLUSIONS OF LAW

1. The Director may advance the priority date of the permit one day for each day the fee was late, pursuant to the provisions of Section 42-217, Idaho Code.

MICROFILMED

MAY 07 1987

2. The date of priority of Permit No. 35-7626 should be advanced 11 days.

ORDER

IT IS HEREBY ORDERED that the date of priority of Permit No. 35-7626 is advanced to July 31, 1976.

Dated this 17th day of March, 1987.

L. GLEN SAXTON
Chief, Operations Bureau

MICROFILMED

MAY 07 1987

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 35-7626

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 18th day of August, 1978.

1. Measurement Calculations

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

$$\text{Theoretical: } Q = \frac{8.8 \text{ (HP)} \times \text{Eff}}{2.31 \text{ (psi)} + \text{lift}} = \frac{8.8 (400) (.92)}{2.31 (78) + 470} = 4.98 \text{ cfs} \checkmark$$

$$\text{Manometer: } Q = \frac{(i.d.)^2 3.85 \sqrt{Y}}{448.8} = \frac{(9.8'')^2 3.85 \sqrt{22.7''}}{448.8} = 3.93 \text{ cfs} \checkmark$$

$$303 \text{ ac} \times \frac{.02 \text{ cfs}}{\text{ac}} = 6.06 \text{ cfs}$$

$$\text{Permit} = 5.00 \text{ cfs}$$

Recommend 3.93 cfs by capacity of system

$$\text{Birds (theoretical)} \rightarrow 6 \text{ lines} \times 66 \frac{\text{bird}}{\text{line}} \times \frac{5 \text{ gpm}}{\text{bird}} \times \frac{10 \text{ cfs}}{448.8 \text{ gpm}} = 4.41 \text{ cfs} \checkmark$$

b) Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 303 \times 3.5 = 1060.5 \checkmark$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 3.93 \times 214 \times 1.9835 = 1668.2$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 1060.5 \text{ cfs} \checkmark$$

c) Volume Calculations for Other Uses: None

2. Overlap Review

a) Other water rights with same place of use: None ☒b) Other water rights with same point of diversion: None ☒

INTER-DEPARTMENT MEMO — 1

FROM John Arambarri

TO File 35-7626

SUBJECT Flow Measurement:

DATE August 18, 1986

The difference between the manometer reading, and the theoretical discharge for 396 birds with 5 gpm nozzles is 0.48 cfs, or 215 gpm. Mark Tucker was informed of this at the time of the exam. Mr. Tucker was unhappy with the difference in discharge, but felt that it was not too far from his expectations for the system capacity.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination. You may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

MAY 07 1986

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

RE: Permit No. 35-7626

Dudley Tucker
Rt. #8, Box 102
Idaho Falls, Idaho 83401

Dear Mr. Tucker:

We acknowledge receipt of the proof of beneficial use card submitted for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our eastern regional office.

Very truly yours,

BOBBIE R. STEPHENS
Principal Clerk

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 35-7626 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE AUGUST 01, 1981. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. A REQUEST FOR EXTENSION OF TIME FORM IS ENCLOSED FOR YOUR CONVENIENCE. PLEASE NOTE THAT A FEE OF \$15.00 MUST BE SUBMITTED WITH THIS FORM.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

RITA FLECK
SR. SECRETARY

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the Regional Office nearest to you.

Sincerely,

David R. Tuthill Jr.

DEVICE REQUIREMENT FOR PERMIT NO. 35-7626

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 18th day of August, 1978.

C. STEPHEN ALLRED
Director

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

**INSTRUCTIONS FOR
ACCESS PORT INSTALLATION**

Purpose

The Department of Water Resources' examiners now have portable measuring devices to measure the flow of water in a pipe flowing full. However, for them to be able to use these devices you must install an access port in your pipeline. You, of course, may wish to install a permanent measuring device or have the flow of your system measured and certified by a professional engineer.

General Requirements

The access port shall be made by welding a 1½ inch welding coupling onto the supply pipe as shown on the attached figures. These welding couplings may be obtained at most plumbing supply dealers.

The access port must be installed at least 24 pipe diameters downstream from the pump, at least 9 pipe diameters downstream and at least 4 pipe diameters upstream from any flow restrictions such as reducers, elbows or control valves. Control valves should be located downstream from the access port. The above required distances may be reduced if straightening vanes are installed in the pipe.

The coupling must be installed perpendicular to the pipe axis and also so that the centerline of the port passes through the center of the pipe. The access should be installed on the side of the pipe, as shown in the following sketch, to eliminate the problem of air in the pipe interfering with the measuring device reading.

Specific Requirements

The type of access port necessary, between Figure 1 and Figure 2 on the back of this page, depends on whether you are willing to turn off your diversion system during the installation of the measuring device.

An access port constructed as shown on Figure 1, access port cold tap, is acceptable if you are willing to turn off your system during the installation of the measuring device. This installation should take no longer than thirty minutes.

An access port constructed as shown in Figure 2, access port hot tap, is necessary if you are not willing to turn your system off during the installation of the measuring device. The valve must be a 1½ inch gate valve with a clear opening of at least one inch. This hot tap can only be made on systems that have pressures less than 70 pounds per square inch. If your system pressure is greater than 70 pounds per square inch, then it must be turned off during the measuring device installation.

If you have questions about the access port, please contact the department's nearest regional office.

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition is less restrictive and provides you the option to install an access port or have your system measured and certified by a professional engineer. Instructions for access port installation are also enclosed.

If you have questions regarding this matter, please contact the Regional Office nearest to you.

Sincerely,

David R. Tuthill Jr.

Re: Permit No. 35-7626

Dudley Tucker
Rt. #2, Box 102
Idaho Falls, ID 83401

Dear Mr. Tucker:

Enclosed is a copy of your approved Application for Permit No. 35-7626 . We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

RE: Application for Permit No. 35-7626 TUCKER

The Post Register
P.O. Box 1800
Idaho Falls, Idaho 83401

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

RONALD D. CARLSON
Supervisor,
Eastern Region

Bill submitted 8-12-76 by CW

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that Dudley Tucker,

Idaho Falls, Idaho

has on 7-20-76 submitted Application No. 35-7626

for a permit to appropriate 5.00 cubic feet per second ~~in excess of the amount~~

of water from a ground-water source

by means of well and pump

within the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, T. 3N, R. 35E, B.M., Bonneville County;

to be used from Apr. 1 to Nov. 1

for the irrigation of 320 acres

within the S $\frac{1}{2}$, Sec. 10, T. 3N, R. 35E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho, 83401 on or before August 16, 1976.
