Re: Permit No. G- 29982

May 2, 1966

Arvel Draper Ins. & Lo^aNS
Box 407
Blackfoot, Idaho

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29982 are due not later than **July 28, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

Dear Mr. Draper:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29982 in the name of Paul Butt, Pingree, Idaho. Final Proof is to be made before you, as Notary on the 21st day of June, 19 66, ~~XXXXXXXXXXXXXXXXXXXXXXXXXXXX~~ 50 N Ash Street, Blackfoot, Idaho, Idaho.

As of this date, we have mailed the Notice to the Blackfoot, News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to ~~you~~ Mr. Butt.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Dear Mr. Tappan,

I enclose form 36 in duplicate, and also form 11. We have been unable to complete the information that would be on permit #G29982 for Paul Butt of Pingree. The permit is in the files of the Mortgagee. Is it possible for you to complete the information needed by taking it from your copy of the permit? If not, can you send us a copy of the permit so we can get the information from it?

Referring to the letter from McEldowney of the 12th, Mr Butt has decided to prove up on the permit as it is now, and apply for a new permit for the adjacent land. Please send a new permit application for this land that he wants to irrigate that is adjacent to his land under permit G-29982.

We certainly appreciate your promptness, and will look forward to hearing from you.

Sincerely yours,

Arvel Draper.

Mr. Arvel Draper,

Dear Mr. Draper:

In reply to your letter of May 11, 1966, as to the addition of lands to Permit G-29982, we submit the following suggested options:

Lands and additional water may be applied for by submitting an application to amend the land list of this permit. A form for amendment is enclosed, and a \$0.50 recording fee is required. However, this department upon receipt and approval of the amendment will advance the priority date of the permit to the date the amendment is received, as the amendment constitutes a new permit.

The second choice would be to submit proof as to completion of works and application to beneficial use of the permit as it now stands. This would maintain the priority of the permit. Then apply for a new permit to cover the additional lands and take a later priority only on the new lands. If you desire a new permit application, please advise this department.

Contact us if we may be of further assistance.

Very truly yours,

RE: Paul Butt, Pingree, Idaho
Permit # G29982

Dear Mr. Tappan,

Mr. Butt recently received your letter of May 2nd regarding Proof of completion of works on the above permit. He said he has now purchased the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 10, Tp 4 S., R. 33 E.B.M., Bingham County, Idaho, which is adjacent to the present land under permit #G29982. Prior to completing the forms you sent with the letter of May 2nd he would like your advise relative to using water from the well under permit G29982 on this new peice of land. He claims there is ample water in the well and the pump can handle the additional amount needed. Can he make application for enough water for this additional land to be taken from the same well? If so, what is the proper procedure?

Upon word from you we will follow up on the necessary work to get the forms taken care of. I will look forward to hearing from you.

Sincerely yours,

Arvel Draper

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29982 are due not later than **July 28, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Jeffers

Dear Mr. Draper:

We enclose Permit No. G-29982 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-6279 which was issued covering payment in the amount of \$5.00 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

Dear Mr. Butt:

Returned herewith is your application for permit to appropriate 40 miners inches of water with your check for \$5.00 attached.

All seems to be in order except the point of diversion and the land list on the application show the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, whereas the two maps show NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10.

Kindly correct the error and return the application with the check attached.
