Dear Mr. Snyder:

It appearing to the Department of Water Resources (formerly the Department of Water Administration) that the terms and conditions of Permit 27260/35-2526 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit licensing fee in the amount of \$7.00, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Resources on or before November 10, 1975, why said permit should not be cancelled.

Permit 27260/35-2526 claims the use of 0.80 cubic feet per second of water from a ground water source (well),

the point of diversion was to be located within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 1, Twp. 3 S,
Rge. 33 E, B.M. and the permit was approved March 4, 1958.

Dear Mr. Snyder:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Blackfoot News, all submitted in proof of completion of works and beneficial use on Permit No. G-27260.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Blackfoot, Idaho.

Dear Mr. Stout:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27260, in the name of Robert C. Snyder. Final Proof is to be made before you, as Notary on the 16th day of April, 1963, at 10:00 o'clock A.M., at 145 W. Idaho St., Blackfoot, Idaho.

As of this date we have mailed the Notice to the Blackfoot News Blackfoot, Ida. with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Mr. Jay H. Stout,
Attorney at Law,
Box 688,
Blackfoot, Idaho.

Dear Mr. Stout:

Mr. Snyder wrote January 10, 1963, that he did not drill the well. The permit provides that one fifth of the works must be completed by September 4, 1960, and all by March 4, 1963.

As he wrote that letter, we could not accept any proofs that the well had been completed according to the permit.

Idaho Code 42-217 and 218, you mentioned in your letter, is part of the old code which has been at least partially amended by 42-226 to 239.

42-235 (5) provides that an extension of time can be allowed. The last portion "but no such extension shall be for a period of longer than five years," has been interpreted as being for a total period of not longer than five years. Read 42-239. The general code shows that the work must be completed in five years except extension of time may be allowed on account of litigation or non action of U. S. Government, or for a large project.

Mr. Snyder's letter was hard to understand. It seemed that he had pumped some water and if he has used some underground water and the equipment is in use or useable at time of inspection, he could make proof on that amount under this permit.

Very truly yours,

In re: Permit No. G-27260 Recorded in Book No. 96,
Page 27260 Approved March 4, 1958, in the
Name of Robert C. Snyder

Gentlemen:

Mr. Robert C. Snyder has contacted me in respect to your letter to him dated January 11, 1963, concerning his relinquishment of rights under the above permit.

In going over this matter with him, Mr. Snyder has advised me that he desperately desires to perfect proof under his permit, and for that reason he has contacted the Federal Land Bank of Blackfoot for the purpose of securing money with which to drill the necessary well.

The above referred to permit was issued for a period of five years from March 4, 1958, the expiration date being March 4, 1963.

I note by Idaho Code Section 42-217 that the maximum period to be allowed a permittee to make proof under his application is six years, and Section 42-218 provides that in the event the permittee is unable to make a satisfactory showing within the time set forth in his permit, that an extension of time can be granted by the Department of Reclamation, but in no case exceeding the six years as prescribed by Section 42-217.

I talked to Mr. Marlo Skinner of the Federal Land Bank of Blackfoot on Thursday morning, January 17, 1963, and he advised me that it appeared probable that loan money would

be available to Mr. Snyder sometime in January for the purpose of drilling the well contemplated by him in his Application No. G35186.

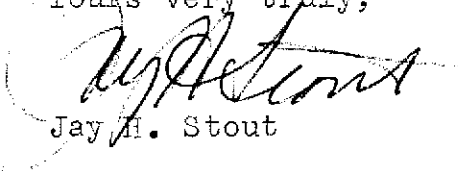

Consequently, Mr. Snyder would like to make a satisfactory showing to the Department of Reclamation for an extension of time in which to make proof of beneficial use.

Would you please send Application forms for this purpose in order that we may make a showing as required by Section 42-218.

In the event you do not have application forms prepared for this purpose, please advise and I shall submit a petition and application for an extension of time on Mr. Snyder's behalf.

May I please hear from you about this at your earliest convenience.

Yours very truly,

Jay H. Stout

Dear Mr. Snyder:

We received your letter of January 10th showing that you had not drilled the well. Enclosed is a form to relinquish a permit.

The proofs are due under your permit on or before March 4, 1963. If we do not receive notice that you can make the proofs, a registered letter will be sent to you about March 20th and the permit will be cancelled in May if you do not send notice you can make the proofs. You mentioned that you had pumped some water with a small pump. Possibly you would want to make proofs on that work. We have no idea of the extent of your irrigation.

Kindly sign the enclosed relinquishment form after inserting the permit number, have some one attest your signature, and return to this office prior to March 4th, if you cannot make the proofs under this permit.

Very truly yours,

Dear Mr. Manwaring:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- **27260** are due not later than **March 4, 1963**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
