Re: Permit No. G-23128
Gerald Larsen & Glen P. Larsen

Mr. Glen P. Larsen
Route #2
Blackfoot, Idaho

Dear Mr. Larsen:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under Permit No. G-23128 shows the well is capable of conveying 300 miners' inches (6. c.f.s.) of water for irrigation of 354 acres, 43 of which are located in the N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 13, Township 1 South, Range 33 East, and which are not included in the land list described in the permit. Therefore it is necessary that the permit be amended and we have included an application form for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$29.00, we will issue to you, Gerald Larsen & Glen P. Larsen, the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (twenty-four dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of October 9, 1952, to your use of 6. second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, for irrigation of 354 acres in the W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 13, Township 1 South, Range 33 East, B.M.

Very truly yours,

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Blackfoot, Idaho

Dear Mr. Kerr:

The engineer's report shows that the amount of water pumped may have been slightly less than 300 miner's inches, and it also shows that the owner claimed it produced 370 inches of water. The report does not show the actual figures of water measurement. The full amount of water claimed on the permit, 300 inches, was allowed on the permit.

The Larsen Brothers may get an independent measurement of the present well production to determine what should be done.

Very truly yours,

Re: Permit #G-25325,
Larsen Brothers

Dear Sir:

Mr. Glen Larsen of Route #2, Blackfoot, Idaho has handed me your notice of February 11, 1960, regarding cancellation of the above permit for failure to complete proofs of beneficial use.

After discussing it with him, I decided I had better write and find out whether there was any proof which could be made. This permit was to provide for the irrigation of the W $\frac{1}{2}$ Sec. 13, T1S, R33 EBM, with the well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 13. There was also another permit, #G23128, originally issued, I believe, to C. L. Williams, thereafter assigned to Larsens, on which Larsens submitted proof and were issued a license for six second feet. At the time of the proof, the land description was amended to include the NW $\frac{1}{4}$ of Sec. 13. At that time, Larsens were of the opinion that their well had a capacity of 370 inches, for which they intended to make additional proof under this permit #g-25325. *They* were later informed, however, upon the field inspection, that permit #G-23128 used the full capacity of the well to provide the six second feet of water under that permit.

It occurs to me, however, that they may have misunderstood the field appraiser's report and that the license under permit #G-23128 was limited to 300 inches because that was all the permit called for, rather than because that was the capacity of the well.

423128

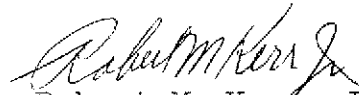

Geo. N. Carter

Page Two

March 7, 1960

Would you, therefor, please examine the files and records on permit #G-23128 and advise me what determination was made as to the capacity of the well. If it is producing any substantial quantify of water in excess of the 300 inches, then we would like to make proof of that fact under permit #G-25325, as the same well and pump are involved in both permits, and some land in the southwest quarter of section 13, township one south, range 33 EBM is actually being irrigated under it.

Yours very truly,

Robert M. Kerr, Jr.

Dear Mr. Carter:

We have an application for a loan from Glen Larsen on Section 13, Twp. 1 S. Range 33 EBM. We, also, have applications for loans from Gerald and William Veri Larsen on lands in Section 21, 22, 27, 28 and 34, Twp. 1 S. Range 34 EBM. Neither the applicants nor their attorney can find the license to submit evidence of their water rights in connection with this land. They advised that the four wells in the latter described land above are licensed under one license No. 20437.

Could you please send us information advising as to the priority of these wells with the description of the land on which the water is to be used from each well. Also, please advise as to how many inches of water each well is licensed for. Your help in this matter would be very much appreciated.

Would you please, also, include an extra copy of your letter as their Attorney, Robert M. Kerr advises he would like a copy for his files.

Dear Mr. Larsen:

Enclosed, in connection with Permit No. G-23128, are the following:

Application for Amendment as approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 82 of Permits at Page 23138, amending the list of land as described on record to read as follows: "NW $\frac{1}{4}$ NE $\frac{1}{4}$ (25a)SW $\frac{1}{4}$ NE $\frac{1}{4}$ (12a)NE $\frac{1}{4}$ SE $\frac{1}{4}$ (20a)NW $\frac{1}{4}$ SE $\frac{1}{4}$ (40a)SW $\frac{1}{4}$ SE $\frac{1}{4}$ (40a)SE $\frac{1}{4}$ SE $\frac{1}{4}$ (30a)NE $\frac{1}{4}$ NW $\frac{1}{4}$ (32a)NW $\frac{1}{4}$ NW $\frac{1}{4}$ (32a)SW $\frac{1}{4}$ NW $\frac{1}{4}$ (40a)SE $\frac{1}{4}$ NW $\frac{1}{4}$ (40a)NE $\frac{1}{4}$ SW $\frac{1}{4}$ (35a)NW $\frac{1}{4}$ SW $\frac{1}{4}$ (8a), Section 13, Township 1 South, Range 33 East, B.M." This amendment should now be attached to the original permit to which it refers and of which it becomes a part.

Assignment of Permit No. G-23128 to Glen P. Larsen of Rt. #2, Blackfoot, Idaho, by Gerald Larsen and Myrtle Larsen. This was acknowledged by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 82 of Permits and should now be attached to the original permit to which it refers and of which it becomes title to.

Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-23128, confirming the right with priority of October 9, 1952, to the use of 6.0 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 13, for irrigation of 35 $\frac{1}{2}$ acres in the W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 13, Township 1 South, Range 33 East, B.M.

Departmental receipts #G-3473 for 50¢ as receipt of the fee for recording the assignment and #G-3474 for \$29.00, as receipt of the five dollar fee for the Certificate of Completion of Works and twenty-four dollars for the license fee.

Dear Mr. Larsen:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under Permit No. G-23128 shows the well is capable of conveying 300 miners' inches (6. c.f.s.) of water for irrigation of 354 acres, 43 of which are located in the N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 13, Township 1 South, Range 33 East, and which are not included in the land list described in the permit. Therefore it is necessary that the permit be amended and we have inclosed an application form for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$29.00, we will issue to you, Gerald Larsen & Glen P. Larsen, the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (twenty-four dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of October 9, 1952, to your use of 6. second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, for irrigation of 354 acres in the W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 13, Township 1 South, Range 33 East, B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well is 267 feet deep, with a 20 inch hole, in rock with no casing except a couple of barrels welded together at the surface. Depth to water is 225 feet. The pump is a Byron Jackson pump, with 200 horsepower motor and 12 inch column. One man measured it at 270 inches. Three unnamed ditches convey the water from the spill-box to the place of use. Each ditch will carry the full 370 inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of cultivated land estimated as follows: 30 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$; 15 acres in SW $\frac{1}{4}$ NE $\frac{1}{4}$; 38 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$; 27 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$; 10 acres in SE $\frac{1}{4}$ SE $\frac{1}{4}$; 40 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$; 32 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$; 28 acres in NW $\frac{1}{4}$ NW $\frac{1}{4}$; 40 acres in SW $\frac{1}{4}$ NW $\frac{1}{4}$; 40 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$ all in Section 13, Township 1 South, Range 33 EEM in Bingham County, Idaho. In addition to the well, pump and ditches two labor houses have been placed on the premises.

H 23128

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Not applicable

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. By purchase of this property from C. L. Williams and Frank Myers and assignment of this permit from C. L. Williams.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. It has been used during the irrigating seasons of 1953, 1954, 1955, and 1956 and 1957, for irrigation of the above described land, in the amount of 370 inches to the extent necessary to raise cultivated crops on land which won't produce crops without irrigation.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None. The water in excess of the 300 inches allowed by the permit has been used on the SW $\frac{1}{4}$ of said Section.

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Willard S. Wray, age, 44, occupation farmer, residence and post office address Route # 1, Blackfoot, Idaho.

Ques. 2. Are you acquainted with Gerald Larsen and Glen P. Larsen, the holder of Permit No. G23128? How long have you known him and where does he reside?

Ans. About 15 years. They reside at Route # 2, Blackfoot, Idaho.

Ques. 3. Have you read or heard read said Permit No. G23128, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground water. Well is located in NW 1/4 of Sec. 13, Township 1 South Range 33 EBM. The water comes out of the pump into a spillbox from which it can be diverted into any of three different ditches and carried to the place on the land.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least seven second feet of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. At least seven cubic feet per second according to my estimate from my own experience in irrigating and using water.

G23128

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

The water has been used for irrigation of cultivated land as
Ans. follows: 30 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, 15 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, 38 acres in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, 27 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$; 10 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$; 40 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$; 32 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$; 28 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$; 40 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$; and 40 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, all in Section 13, township 1 South, Range 33 EBM. Extra water has also been used to irrigate land in the SW $\frac{1}{4}$ of said Section. Other improvements are two labor houses.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava ash. An inch to an inch and a quarter is required for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the well used for five years during the irrigating season producing at least seven c. f. s. Part of the land above described was irrigated five years and all of it the last four years to produce crops by the usual methods of irrigation from ditches.

Dear Mr. Kerr:

Enclosed is the application for amendment to Permit No. G-23128, Gerald Larson and Glen P. Larsen, which has changed the land list as described in the original permit to read 30 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$; 15 acres SW $\frac{1}{4}$ NE $\frac{1}{4}$; 38 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$; 27 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$; 10 acres SE $\frac{1}{4}$ SE $\frac{1}{4}$; 40 acres SW $\frac{1}{4}$ SE $\frac{1}{4}$; 32 acres NE $\frac{1}{4}$ NW $\frac{1}{4}$; 28 acres NW $\frac{1}{4}$ NW $\frac{1}{4}$; 40 acres SW $\frac{1}{4}$ NW $\frac{1}{4}$; 40 acres SE $\frac{1}{4}$ NW $\frac{1}{4}$; all in Section 13, Township 1 South, Range 33 East, B.M.

This amendment was approved by the State Reclamation and recorded in the Department of Reclamation in Book 82 of Permits at Page 23128. It should now be attached to the original permit to which it refers and of which it becomes a part.

Gentlemen:

I enclose herewith on behalf of Glen P. Larsen notice of proof of completion of works and application of water to beneficial use concerning the proof to be submitted at my office before me at nine o'clock A.M. on the 19th day of September, 1957. I also enclose letter of authorization for publication and an amendment of the place of use to cover other lands in the Northwest Quarter of said Section 13. I trust these will be found in satisfactory form.

It also appears from the sketch furnished me that the well is located in the Northwest Quarter of the Northeast Quarter instead of in the Southeast Quarter of the Northeast Quarter and we should probably complete the record with an amendment or change of the point of diversion. I would appreciate your sending me the necessary application form for this also.

Dear Sirs:

Re: Loan #122588 - Larsen

We have been advised by Mr. Glen P. Larsen of Blackfoot that Permit #23128 was to be amended to include the West half of Section 13, in Township 1 South, Range 33. R.B.M. Also proof of completion of works and application to beneficial use was to have been made.

Will you kindly advise regarding these matters.

You may answer by commenting on the attached form certificate.

Yours truly

Dear Mr. Marshall:

Re: Your loan #122588 - Larsen

With reference to your letter of February 18, 1957, we find the information of the first paragraph as being correct when you say that according to the information you have Permit No. G-23128 was in the name of C. L. Williams and covered the E $\frac{1}{2}$ of Section 13, Township 1 South, Range 33 East B.M.

Our records disclose that Permit No. G-23128 was assigned from C. L. Williams and wife, assignors, to Gerald Larsen and Glen P. Larsen, assignees; and that said permit has not been amended to include the W $\frac{1}{2}$ of Section 13, Township 1 South, Range 33 East.

Dear Sirs:

Re: Loan #122588 - Larsen

1/ We inquire as to permit #G23128. According to our information this permit was in the name of C.L. Williams and covered only the east half of section 13 township 1 south, range 33 E.B.M.

2/ This property has been sold to Larsen Brothers of Blackfoot, Idaho, and they are desirous of filing the necessary proofs. We understand also that the permit was amended or should have been amended to include the west half of the said section.

Will you kindly advise the status of this permit with respect these two questions. We thank you in advance for this courtesy.

Yours very truly,

Dear Mr. St. Clair:

We have recorded the Assignment of Permit No. G-23128 from C. L. Williams and wife to Gerald Larsen and Glen P. Larsen and return same to you, herewith.

Since this has been recorded in our office showing Messrs. Larsen to be the record owners of the Permit, it is not necessary to make a notation on the original permit as the Assignment will doubtless be attached thereto and become a part thereof.

The fee for recording this Assignment is fifty cents for which you may send us your check.

Gentlemen:

We have your letter of June 16 stating that you have purchased the $E\frac{1}{2}$ Section 13, Township 1 South, Range 33 East B.M. from Mr. C. L. Williams, and requesting an increase in the amount of water on the permit, for use on this half section.

The records in this department show that Mr. Williams is the record owner of Permit No. G-23128 for 6 second feet of water from a well in the $SE\frac{1}{4}NE\frac{1}{4}$ Section 13, Township 1 South, Range 33 East B.M. for use on the $E\frac{1}{2}$ of said Section. If you are now the owner of this property, you should have an assignment from Mr. Williams for the Permit and we enclose a form of Assignment herewith. This should be executed by Mr. Williams and his wife before a Notary Public and returned to this department together with the statutory fee of fifty cents.

This Permit cannot be amended for a larger amount of water but since the well will deliver more, you may file another application for an additional amount to be used on the $W\frac{1}{2}$ of the Section and we enclose a form of application herewith, together with a pamphlet giving regulations and instructions in regard to filing same.

Very truly yours,

Department of Reclamation,

Dear Sirs:

We are writing you concerning a place we bought from C. L. Williams, located in Township 1 south, Range 33 E. B. M., east half of Section 13, watered with Sub-teranian water. Mr. Williams filed an application and recieved a permit on this property. After we got the pump in operation we discovered we had considerable more water than what we had farmable ground so we purchased the west half of said said Section 13 to use up the water.

In as much as the point of diversion is the same, we would like to increase the amount of water on the permit to 4500 gallon per minute, however, that figures out in miners inches, or second feet.

Thanking you in advance, we remain,

Yours truly,

Larsen Brothers.

Dear Mr. Williams:

We have made the correction on Permit No. G-23108, as requested in your letter of November 10, to show the correct location to be in Section 13, Township 1 South, Range 33 East, B.M., and return the permit to you herewith.

This same correction has also been made, of course, on the records in this department.

Your application for permit on Section 9, has been approved and will be sent you within a few days.
