Dear Mr. Church:

We received your letter of November 9th in regard to above noted License, photo copy of which is returned.

State Statutes provide that licensed or decreed water are transferred in ownership by deed to be recorded in the County Records. It would seem best that the license number or the amount of water and priority be shown on the land deed.

This office cannot keep a record of changes in ownership of lands and water rights over the state.

I do not find a record of the transfer of this water right to other land.

Re: Water License and Permit No. 20669 - D.W. Dance

Gentlemen:

Relative to the matter above-captioned, please find enclosed herewith a photocopy of the license and certificate of water right issued on June 26, 1963, to one D.W. Dance. This water right is appurtenant to certain real estate now owned by my clients, William Roper and Tressa M. Roper, husband and wife, and Roper Investment Company, a corporation. The land is presently being sold under Contract to Mr. Jack Hirai of this area. As near as I am able to ascertain, the land has been transferred at least three times since Mr. Dance owned it and there have been no assignments of the water right other than by the usual "appurtenances" clause. I was wondering if your Office would require the specific assignment of this water right or if the same could be placed in escrow, along with the Contract of Sale, and the possession thereof evidence the water right in the owner of the real property.

May I have your comments.

Thank you.

Very truly yours,

Dear Mr. Kerr:

We acknowledge receipt of your letter of September 29, 1952, enclosing depositions of Doyle W. Dance and two witnesses, also affidavit of publication in the Blackfoot Daily Bulletin, all in proof of beneficial use under Permit No. 20669.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Dance at the time he makes the examination so that arrangements may be made to show him over the grounds.

We return your check for \$10.00, which accompanied these proofs, as no fee is required until an inspection has been made and report filed, after which we shall notify the permit holder of the amount, which will be at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Re: Permit No. 20669

We have your letter of July 31, 1952, with reference to the description given on the above permit in the name of D. W. Dance.

The 10 acres which was omitted in the description was not an oversight. He has not used water on these 10 acres. We should have mentioned in our letter that portion of the premises was intentionally omitted.

Dear Mr. Dance:

We return your Proof of Completion of Works under Permit No. 20669 for correction as follows:

1. Question 3 should give the location of the well in subdivision, Section, Township and Range.

2. Question 6 should give the depth and size of the well and casing; also the kind and size of the pump. Since there is not much room for this under Question 6, it could be given under Question 9.

3. The land description in Question 8 is incomplete. The Permit describes the SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 30, Township 2 South, Range 34 East, B.M.

PROOF OF COMPLETION OF WORKS

Mr. D. W. Dance
Route 2
Blackfoot, Idaho

Boise, Idaho **July 1, 1950**

Dear Sir:-

Under the terms of your permit No. 20669-----you are required to complete your diversion works on or before Sept. 29, 1950----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
