RE: APPLICATION FOR TRANSFER NO. 3721 OF WATER RIGHTS 34-7205
AND 34-0010 IN THE NAME OF YOUNG HARVEY WALKER AND JOSEPH
R. JOHNSON

Dear Mr. Walker:

On February 28, 1991, you called me in connection with the above referenced application for transfer and asked what the department's file shows in connection with the department's action on the application. My review of the file shows the following:

- On May 25, 1990, the application was filed with the department.
- The transfer proposed an exchange of water from Joe Johnson's well for shares of storage water you own.
- The application stated that the proposed exchange was temporary and was intended to prevent the delivery of stored water outside the boundaries of the Big Lost River Irrigation District (irrigation district).
- The transfer was protested by the irrigation district and numerous other parties.
- On July 5, 1990, the department corresponded with the irrigation district and clarified that the department only has authority over the change associated with the water diverted from the well of Joe Johnson and not in connection with stored water administered by the irrigation district.
- On July 25, 1990, the department conducted a conference in Arco in an attempt to resolve the matter of protest.
- After an explanation of the application at the conference, some of the parties were willing to withdraw their protest but others were not.
- In a telephone conversation on August 1, 1990, you advised the department that you would not pursue the application and would relinquish it.

- On September 21, 1990, the department advised you that the department considered the application relinquished and would take no further action on it.

In summary, the department took no action on the application to approve, deny or approve with conditions since the application was withdrawn from consideration before a hearing was conducted and a decision issued. If you have additional questions, please feel free to contact the department.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Glen Saxton". The signature is fluid and cursive, with the first name "L." being small and the last name "Saxton" being larger and more prominent.

RE: Calculation of Loss for Application No. 34-7205
DATE: August 29, 1977

Mr. Johnson, the applicant, is filing for the additional allowable water on 219 acres which totals 3.99 c.f.s. (4.38 cfs - 0.39 cfs under License No. 34-2484), plus the assessed transportation loss of 40% to 45%.

Originally the calculation made on the day he filed was 5.79 c.f.s. as indicated on the application. However, it appears to me a figure of 7.25 c.f.s. more accurately incorporates the estimated loss.

Therefore, I recommend the quantity on this application be increased to 6.00 c.f.s. This is still lower than the desired amount but it would not require any additional filing fee from the applicant.

7
We will leave
the 5.79 as it ~~includes~~
45% trans. loss & sums
to be what the applicant
wanted & applied for. Also
