RE: Permit No. 33-7007

Simplot Industries, Inc.

Boise, Idaho 83701

Gentlemen:

On July 26, 1976, personnel from this office visited the well under your Permit No. 33-7007. This examination was to finalize the water permit and collect data required for the licensing of the well.

The examination indicated that the measuring device installed on the diversion works was inoperable. A measuring device approved by this Department must be maintained at the point of diversion. Because of this non-compliance where the measuring device is concerned, the priority date you have established for this ground-water source may be in jeopardy.

This office will hold the field report until August 15, 1976. At that time we will submit our findings to the State Office in Boise. Hopefully, before that time you will contact this office and indicate that the measuring device has been repaired or a new device installed. We will then re-examine the system with you or your representative present. Please contact me to set up an appointment for this re-examination.

Compliance with the conditions on your permit is the only way a license can be issued pursuant to the Idaho Code for your water right development and the land included under the above referenced permit.

If you have any questions concerning this matter, please do not hesitate to contact me.

Very truly yours,

RE: An Analysis of the Conflict Between Pre-Existing Water Rights Filed by Hope Land & Water Co., and Applications for Permit Filed by Simplot Industries, Inc.

DATE: October 31, 1977

Hope Land & Water Pre-Existing Licenses:

License 33-2054 - 2.32 c.f.s. on 997.22 acres

License 33-2076 - 7.50 c.f.s. on 997.22 acres

License 33-2075 - 10.12 c.f.s. on 997.22 acres

These licensed together are equivalent to 0.02 c.f.s./acre, (allowable limit).

Permit 33-2053 filed by Hope Land and Water Co. has lapsed due to the applicant's failure to file beneficial use. This permit was for the identical 997.22 acres appurtenant to the above three referenced licenses.

Permit 33-7007, proof has been filed and a field examination pending. The exam has not yet been completed due to a broken measuring device. (Simplot's)

TO FIELD EXAMINER - Do not license any water for lands in Sec. 6, T. 5N, R. 30E, as these lands are licensed for a maximum amount of groundwater. License water for lands in SW¼SE¼, Sec. 1, T. 5N, R. 29E, and lands in S½NE¼, SE¼NW¼, and S½, Sec. 5, T. 5N, R. 30E.

Permit 33-7053, approved but to date proof has not been filed. Here there has been an overfiling of 2.80 c.f.s. An appropriate filing would have been 160 acres and 3.20 c.f.s., (E½NW¼, E½SW¼, W½SE¼). Overfiling - 220 acres in Sec. 6, T. 5N, R. 30E, 160 acres in NE¼, and 55 acres in E½SE¼, Sec. 1, T. 5N, R. 29E. (Simplot'

Finally, the application received on October 21, 1977, should have been for only 80 acres in W½NW¼, and 60 acres in W½SW¼, Sec. 1, T. 5N, R. 29E, for a maximum total of 2.80 c.f.s.; overfiling on 630 acres and 6.30 c.f.s. (Simplot's)

Simplot Industries, Inc. Attn: Ronald N. Graves, Staff Attorney
P. O. Box 2777
Boise, Idaho 83701

Gentlemen:

One of the conditions of approval of your water Permit No. 33-7007 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
