#2 Format needs to be used

2) Transfer filed for a proposed change or changes made after the commencement of adjudication and after filing of adjudication claim, but the adjudication claim does not match the statutory right before making the change;

3) Transfer filed on an adjudication claim based on beneficial use (i.e.; there is no existing statutory right).

PROCESSING OF TRANSFER APPLICATIONS

In examples no. 1, a transfer application does not need to describe the adjudication claim. However, item A.1. of part 2 of the application should at least reference the adjudication claim number if one has been filed. The regional office shall attach a copy of the appropriate adjudication claim proof report when forwarding the transfer application to the state office. The remarks section of part 1 of the transfer application can be used to describe the relationship between the statutory right and adjudication claim.

In example no. 2, where the transfer proposes changes to a statutory right that is recorded differently by an adjudication claim, the transfer application should describe both the statutory right and the adjudication claim. The legal notice must also show the right as recorded by the original decreed/statutory right as well as recorded by the adjudication claim. An example of this advertising format is provided as attachment A. This procedure for filing and advertising transfers should also apply to those situations whereby the adjudication filing(s) claim an expansion of the statutory right based on one or more presumption clauses of Section 42-1416, Idaho Code. However, the Department will not

DEC 09 1991

approve a transfer for the expanded portion of a right since Section 42-222, Idaho Code does not authorize the Department to approve changes which constitute an enlargement of the original right.

In example no. 3 above, where a change is proposed that is documented only by an adjudication claim, field examinations must be conducted by the regions to confirm the use claimed prior to making final recommendations and forwarding the transfer to the state office.

The Water Allocation Bureau shall forward a copy of each transfer within the SRBA to the Adjudication Bureau upon final approval or decision of the application.

ADJUDICATION CLAIM AMENDMENTS

In order to satisfy the requirements of Section 42-1409(4), Idaho Code and simplify the procedure for amending adjudication claims, each approved application for transfer will be treated as the Department's notice of an amendment to the adjudication claim. The Department therefore will not require transfer applicants to file separate adjudication claim amendments.

RE: Transfer of Water Right Nos. 33-02125 & 33-02119

MAILED

MEMORANDUM

TO: FILE

FROM: TIM LUKE

DATE: November 18, 1991

RE: TRANSFER NO. 3722/LICENSE NO.s 33-2125 & 33-2119

=====

This transfer adds a point of diversion and changes the place of use for portions of the above licensed rights. Both rights were originally licensed for the same points of diversion. The applicants have installed center pivots on the original licensed place of use for 33-2125, thereby drying up corners around the pivots. Applicants now propose adding a well to service a center pivot system which will irrigate 122 acres of new ground. Acreage from the dry corners will be moved to the new ground. Per conversation with a Simplot Co. representative, the new well will service the 122 acre pivot and will also be tied into the other two wells identified under both 33-2125 and 33-2119.

License no.s 33-2125 and 33-2119 also overlap 78 acres in the E1/2SE1/4 of sec. 32, T6N, R30E. Under the transfer, the 78 acres will be reduced to 64 acres under both rights. The rate of diversion for 33-2119 is reduced proportionately.

The transfer should be approved with the following conditions:

- 1) The maximum combined rate of diversion under this right and Right No. 33-2119 shall not exceed 12.9 cfs.
- 2) <<T07>> The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
- 3) <<T08>> Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
- 4) <<T09>> Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Once these permits are amended to show both P.D.'s capacity of the system will be the sum of the two separate measurements. Thus:

$$\text{Capacity} = 5.46 \text{ cfs} + 7.44 \text{ cfs} = 12.90 \text{ cfs}$$

$$\begin{aligned} V \text{ capacity} &= \frac{153 \text{ days} \times 24 \frac{\text{hr}}{\text{day}} \times 60 \frac{\text{min}}{\text{hr}} \times 448.8 \frac{\text{gpm}}{\text{cfs}} \times 12.9 \text{ cfs}}{325,900 \text{ gal/AF}} \\ &= 3914 \text{ AF/Year} \end{aligned}$$

Recommendations:

33-2119

$$Q = ~~10.36~~ \text{ cfs} \quad 10.36 \text{ cfs}$$

$$V = 3.0 \frac{\text{AF}}{\text{A. Year}} \times 518 \text{ A} = 1554 \text{ AF}$$

$$Q = 10.0 \text{ cfs}$$

$$V = 3.0 \frac{\text{AF}}{\text{A. Year}} \times 634 \text{ A} = 3 \frac{\text{AF}}{\text{A. Year}} \times 78 \text{ A (overlap)}$$

$$V = 1668 \text{ AF/Year}$$

Attn: Ronald N. Graves

Gentlemen:

One of the conditions of approval of your water Permit No. G-32921/33-2125 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 13, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Mr. R. M. Winans
SIMPLOT INDUSTRIES, INC.
P.O. Box 2777
Boise, Idaho 83701

Dear Mr. Winans:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,
