One of the conditions of approval of your water Permit No. 65-7641 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

MEMORANDUM

FROM: Peter Chamberlin *PC*

Date: August 4, 1976

TO: File 65-7641

RE: Pre-permit exam

On August 3, 1976, J. Bud Harp and Ed Hart accompanied me on a field inspection of their proposed water system and diversion works. The source of water is groundwater being developed by digging three (3) shallow sumps, gravel packing the sumps and placing perforated pipe in the drain field sumps to drain water into two (2) 1000-gallon storage concrete tanks. The sumps have been dug and the storage tanks are in but the system has not yet been fully completed. Water will be pumped from the tanks to irrigate 8 acres and domestic to one cabin.

The place of use and the point of diversion are both the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 21 T12N-R4E, Valley County, also known as Meadow View Heights Subdivision lot 16 and part of lot 15. The applicant has indicated his point of diversion wrong on his application, but he will file an amendment to correct the legal of the point of diversion and place of use.
