Re: Permit No. 65-7382

Dear Mr. and Mrs. Faull:

Recently you spoke with Lee Sisco of our office concerning the field exams conducted for Permit No. 65-7382 which covers storage and diversion for irrigation and fire protection. At that time you mentioned a letter had been sent which stated a field exam was completed and that an amendment was now necessary before a license could be issued. You stated that the amendment form and filing fee were returned to us and that you now have a receipt for the \$10.00 fee.

However, in looking through this file we cannot find the amendment or letters pertaining to such. In order to clear up this problem, would you please send us a copy of our letter and receipt for the amendment. Upon receipt of these copies we will draft a new amendment form, have you sign and return it with no fee necessary. A license will be issued as soon as the amendment is completed.

We hope this matter has not caused too much inconvenience, and if you have any questions, please contact us.

Dear Mr. & Mrs. Faul1:

One of the conditions of approval of the above referenced water right permit was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before

August 1, 1978. The enclosed affidavit form is the document you must complete and submit as the proof of application of water to beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
