The above called today in regards to our letter of 3-30-83. He requested that we send him a copy of the overlapping license 43-2232 before we license 43-2594.

I sent copy today - Call up in 10 more days.

RE: Permit No. 43-2594

Matthews Bros., Inc.
Route #1
Oakley, ID 83346

Gentlemen:

On December 17, 1982, we sent you a letter in reference to Permit 43-2594. This letter informed you of the findings of the Department's field examiner and requested that you submit an amendment of permit. Upon receipt of the amendment the Department would then issue a licensed right.

On January 21, 1983, we received the said amendment and started to complete the final processing of this right. It was then that we discovered that an overside had been made in our initial review.

Permit 43-2594 has the same source (Almo Creek) as Right 43-2232 which has the same place of use as identified on Permit 43-2594. For example: 357 acres were identified on Permit 43-2594, however, 275 of those acres were already included in License 43-2232. Therefore, Permit 43-2594 should only reflect the lands not covered under Right 43-2232. This right after adjusting for the existing Right 43-2232 is described as follows:

Rate of diversion: 1.64 cfs
Maximum annual volume: 287.0 acre feet
Point of diversion location: (1 point) NW $\frac{1}{4}$ SW $\frac{1}{4}$, (4 points) SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9;
(1 point) NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sect. 16; Twp. 15S, Rge. 24E, Cassia County
Beneficial use: Irrigation of 82 acres within the E $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9; E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 16; Twp. 15S, Rge. 24E
Priority date: May 29, 1967

Since the point of diversion description is still different than what the permit had originally described the amendment of permit is still required. If you do not concur with these findings, please let us know within 15 days. Otherwise a license will be issued. If you have any questions, please let us know.

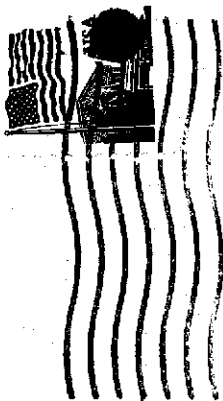

Sincerely,

JIM JOHNSON

Re: Permit No. 33628 (New No. 36-2696)

Matthews Brothers
Oakley,
Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
