Dear Mr. Higginson:

In your letter to us dated July 12, 1967 you informed us that we had not complied with the terms and conditions of Permit G-27019 as to non-payment of fees.

It is our sincere opinion that these fees were meet as prescribed. However, due to the short time period remaining before the August 21, 1967 deadline set by you to show cause why said permit should not be cancelled compared with the time consuming task of tracing payment in our records, we request you inform us as to the amount due that we might clear the matter immediately.

Please inform us on this matter immediately at our California address.

Dear Mr. Preston:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Herald Bulletin, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

RE: Permit No. G-27019

Cline Preston
1234 Conant Avenue
Burley, Idaho

Dear Mr. Preston:

We received notice from the Burley Herald Bulletin that you were inquiring about the forms to make proof of completion of works and beneficial use of the water.

The tear sheet accompanying the letter shows 320 miner's inches or 8 cubic feet per second which is poor arithmetic as it is 6.4 cubic feet per second; however the permit shows 250 miner's inches or 5.0 cubic feet per second. The notice shows priority of July 16, 1962 whereas the priority of the permit is July 31, 1957.

Evidently you failed to read instructions and delivered the legal notice to the paper without approval of this office. We have no record of the legal notice.

Enclosed are forms for deposition of holder and two witnesses which you may use August 11 as shown in the legal notice. I believe that the only priority we may be able to give you would be July 16, 1962 as advertised, instead of about five years earlier.

You may pay the bill for this legal notice and request a set of Forms 36 and 11 for a new legal notice which you should remit to this office for approval before publication, cost of which would also have to be paid by you.

Very truly yours,

Burley, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- ~~27019~~ are due not later than August 13, 1962 ~~27020~~

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Re: Permits No. 20542 - G-27019
G-27020 - G-28925

Mr. David R. Mead, Assistant Mgr.
Twin Falls Branch Office
Utah Mortgage Loan Corporation
P. O. Box 571, Twin Falls, Idaho

Dear Mr. Mead:

Returned herewith is the plat you sent November 25th requesting information on wells, permit numbers, etc.

We have a well log on a well drilled in NW1/4SE4, Sec. 21, drilled February, 1954, 400' deep, static water level 58.5'. There is no information on capacity of the well.

The permit number and a circle is shown for the proposed point of diversion. The permit is underlined and the land to be irrigated is checked with the same color. You will note that Permit No. G-28925 overlaps an 80 under Permit No. G-27020, an 80 under Permit G-27019 and entirely on Permit No. 20542.

Two Certificates of Completion of Works have been issued under Permit No. 20542 for a total of 12.0 c.f.s., however the amount claimed on the permit is 6.4 c.f.s. Proof of Beneficial Use of the water is due September 15, 1961. The two wells were shown on the proof of completion of works as being drilled; No. 1 completed July 23, 1953 and No. 2 completed August, 1955. Your well No. 2 is probably the well No. 2 of this permit.

Your wells No. 3 and 4 were probably drilled under a permit which has been cancelled.

The lands under Permit No. 20542 were included under G-28925 to obtain the full miners inch for the 400 acres from the same wells.

Dear Mr. Nielson:

We enclose Permit Nos. G-27019 and G-27020 in the name of Gline Preston and we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

You will note that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

We also enclose departmental receipt Nos. G-2816 and G-2817 which were issued covering payment of \$12.00, which included the \$6.00 filing fee for each permit.

We enclose twelve copies of Form No. 3, Application for right to appropriate water, as you requested in your letter of July 30, 1957.
