Re: Permit No. G-25132

Mr. Harry Serr
Paul
Idaho

Dear Mr. Serr:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-25132 shows that your well is capable of conveying 50 miner's inches (1.0 c.f.s.) of water for irrigation of 50 acres in the NE $\frac{1}{4}$ of Section 27, Township 9 South, Range 22 East, B.M. The record of the permit does not list the land in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, therefore, it is necessary that it be amended to include it. We have enclosed an application for amendment form for your signature.

Upon receipt of the amendment, mentioned above, and the statutory fees, totaling \$13.00, we will issue to you the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (eight dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of July 30, 1954, to your use of 1.0 second foot of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27, for irrigation of 50 acres in the NE $\frac{1}{4}$ of Section 27, Township 9 South, Range 22 East, B.M.
