Dear Mr. and Mrs. Black:

Returned herewith is your application for permits which were approved.

We have been contacted by the Bureau of Land Management and it seems that you sent your application for amendments to them and the applications to our department. The B.L.M. has forwarded the application for amendments to us, however, before we can process the applications we will require a \$5.00 application fee for each amendment.

Please forward the fees as soon as possible so that we may continue processing your applications for amendments.

Very truly yours,

Dear Mr. Corless:

We are writing in connection with the Farrel Black Ranches, Inc - Re: your number 14 214. At the present time, Mr. Black's permits are as follows: G-32783, which has been re-numbered to 31-2445. This permit was receipted on March 24, 1966, which is the proposed priority date, and the permit was approved for 8.2cfs, for use in Section 3, in the NW $\frac{1}{4}$ of Township 7 N, Range 37 E. At present, evidence of beneficial use has been received under this permit, but the field examination has not been concluded. Therefore, we cannot propose a license at this time.

Permit No. G-32367 has been re-numbered 31-2444, and is in the name of Farrel T. Black. the proposed priority date is May 6, 1965. At present, we are proposing to issue a license for 6.30cfs for the use on 315 acres in Section 9, Township 7 N, Range 37 E.

We are recording the assignment to the name of Farrel Black on Permit No. G-32784, and we are prepared to issue two licenses under this permit. The partial license to Farrel Black will cover 1.6cfs from a well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10, for the irrigation of 80 acres in the S $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 10. The second license under this number will be under Dorothy and Farrel Black Ranches, Inc., and will carry the same priority, and will be issued for 1.63cfs for 277 acres. The licenses are prepared at this time for the signature of the director, and should be issued promptly. If you have any questions in the matter, please contact us.

Re: 141214 - Farrel Black Ranches, Inc.

State of Idaho
Department of Water Administration
Statehouse - Annex 2
Boise, Idaho 83707

Gentlemen:

Enclosed is an Assignment of Permit No. 31-2443 to accomplish an adjustment of water permits granted to Dorothy and Farrel Black.

It is our understanding that this now assures the Blacks of a sufficient water right to irrigate all the lands they have presently developed under all of their permits in Sections 3, 9 and 10 of Twp. 7 North, Range 37 EBM.

There is some confusion on the assignment of numbers and priorities on their three permits. Our original correspondence showed them to be G32367 for 7.2 c.f.s. with 5-6-65 priority, G32783 for 8.2 c.f.s. with 3-14-66 priority, and G32784 for 8.2 c.f.s. with a 3-14-66 priority. We have some correspondence that shows the first permit to be designated as 35-2776, the second 35-2818 and the third 35-2778.

It is our understanding that the Blacks have submitted evidence of completion of works and asked for a license to be issued, particularly, on their permits originally designated G32-367.

Could you send us a letter of confirmation that the license will be issued after your field work and investigation has been completed. We would also like to know when the other permits will be advanced into licenses. It is our understanding that the Blacks have fully developed all the lands designated in their permits and the licenses await only your field inspection.

Dear Mr. Black:

A representative of this department has made an examination of the works covered by your Permit No. 31-2444 and has found the following:

Quantity of water diverted: 7.0 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 6.30 c.f.s.

The maximum quantity diverted shall not exceed 1,102.5 acre feet per season.

Beneficial Use: Irrigation of 315 acres within the NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$,
SW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 9, T. 7 N., R. 37 E., B.M.

The priority date established is : May 6, 1965

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Farrel T. Black
Terreton, Idaho

Dear Mr. Black:

One of the conditions of the approval of your permit
G-32367/35-2776 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
May 24, 1970.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

Re: Permit No. G-32367

Farrel T. Black
Terreton, Idaho

Dear Mr. Black:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Department of Reclamation

Terreton, Idaho
December 12, 1968

Mr. Steven Allred
State Reclamation Department
State House
Boise, Idaho

Dear Mr. Allred:

With reference to our telephone conversation for making final allocation of water right, it is our request that the rights designated for the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 10, Township 7 North of Range 37 EBM be now allocated to the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section 10. This right is now represented under License #G32-784.

That right presently allocated to the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 9, Township 7 North of Range 37 EBM should be transferred and allocated to the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 9. This right is presently designated under License #G32-367.

The reason for these transfer is that we have not irrigated the two 40-acre tracts originally designated and it is not presently practical to do so, but our system does cover and is presently irrigating the lands upon which we want the right transferred.

Enclosed is our check in the sum of \$10.00 to cover costs of filing the amended request.

Re: Application for Permit

Mr. Farrel T. Black
Box 311

Dear Mr. Black:

Returned herewith is your application for permit received without the filing fee. You claim 6.4 second feet whereas the land list shows 360 acres, if all are irrigated. The amount of water could be 7.2 second feet. You show the well in NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, T. 7 N., R. 37 E., and the map shows center of N $\frac{1}{2}$, Sec. 9. Possibly the point of diversion should be changed to near N $\frac{1}{2}$, Sec. 9, so the well could actually be in either of the 4 subdivisions and still be accurately described.

Kindly correct as desired and return with the filing fee as shown on the fourth page of the application.
