Re: Permit No. G-27751

Merl Park and Sons
Route 1
Shelley, Idaho

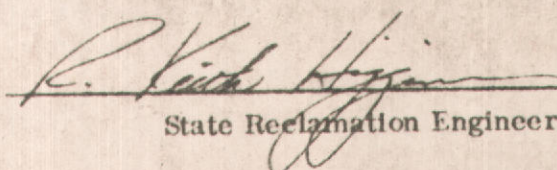

Gentlemen:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit G-27751 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to remit
licensing fees of \$23.00

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before March 5, 1968, why said permit should not be cancelled.

Permit G-27751 claims the use of 2.65 c.f.s.
of water. The point of diversion was to be located
SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, T. 7 N, R. 36 E, B.M.

and the permit was approved February 2, 1959.

Examination for Completion of Works & Beneficial Use

County Jefferson

Quantity: 3.2 cfs. Sec. 35 T. 7N R. 36 EBM

Source: Well

P. D.: SW. 1/4, Sec. 35, T. 7N. - R. 36 EBM.

Use: Irrigation

Filed: Jan. 26, 1959

Due: Feb. 2, 1964

made 4-30-62

Extension: Quantity for 26, 1959

Protest: —

Completion of Works: —

Other Rights: none

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

**NOTICE OF PROOF OF COMPLETION
OF WORKS AND APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 10:00 a.m., on the 30th day of April, 1962, at Idaho Falls, County of Bonneville, State of Idaho, before Jesse Tremelling, Notary Public, at (address) 683 N. Capitol, Idaho Falls, Idaho, proof will be submitted of the completion of works for the diversion of 3.20 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-27751, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Merl Park and Sons, Hamer, and Shelley, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.20 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.20 cubic feet per second.

4. The point of diversion of said water is SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, Twp. 7 N., Rge. 36 E.B.M.

5. The place where said water is used is NE $\frac{1}{4}$, Sec. 35, Twp. 7 N., Rge. 36 E.B.M.

6. The date of priority which said user is prepared to establish is Jan. 26, 1959.

GEO. N. CARTER,

State Reclamation Engineer

State of Idaho

License and Certificate of Water Right

Water License No. G-27751 Priority January 26, 1959 Amount 2.65 c.f.s.

THIS IS TO CERTIFY that MERL PARK & SONS

of Shelley, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated January 26, 1959; that Permit No. G-27751 was issued under said application; that Certificate of Completion of Works, with a carrying capacity of 2.65 second feet, was issued thereunder on March 21, 1968, showing that said works were completed on the 30 day of April, 1962; and that on the 30 day of April, 1962 MERL PARK & SONS by Ray Park

of Shelley, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of a right to the use of the waters of a well

a tributary of subterranean flow for the purpose of irrigation under Use Permit No. G-27751 of the Department of Reclamation, and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume ~~XXXX~~ ~~XXXX~~ ~~XXXX~~ ~~XXXX~~ on the 21 day of March, 1968.

The right hereby confirmed dates from January 26, 1959.

The Point of Diversion is located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, Twp. 7 N, R. 36 E, B.M. Jefferson County.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 2.65 cubic feet per second.

Description and location of use:

Twp.	Range	Section	Forty-Acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated		
7 N	36 E	35	NE $\frac{1}{4}$	40	26

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 35689
Permit No. G- 27751
District No.

Cope Drilling & Pump Company
P. O. Box 1134
Idaho Falls, Idaho

1. Name of Applicant: MERL PARK AND SONS
Postoffice address: Rt. # 1 Shelley County: Bonneville State: Idaho
2. Quantity of water claimed: 3.2 cubic feet per second
(a) Rate of withdrawal in cubic feet per second 3.2 or Idaho
Miners' inches 160 or gallons per minute
(b) Annual withdrawal in acre feet per annum 320
3. Source of water supply: Subterranean from well
4. Location of point of diversion or well is in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 35
Twp. 7 N. , Rge. 36 E. , B.M., County of Jefferson
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well
8. Estimated cost of works: \$ 6,000
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
(b) all (cubic feet per second, inches or gallons per minute) is for new lands.

Application for Amendment
LAND LIST
Permit No. G-27751

Comes now MERL PARK & SONS, and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27751 requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

NE $\frac{1}{4}$, Sec. 35, Twp. 7 N., Rge. 36 E. All land lying west of Union Pacific Railroad in Section 36, Twp. 7 N., Rge. 36 E., B. M., making a total of 320 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Hamer, Idaho, this 20 day of February, 1963.

s/ MERL PARK & SONS
Hamer, Idaho By: Ray Park

te of Receipt at Office of Department of Reclamation February 25, 1963

APPROVAL OF STATE RECLAMATION ENGINEER

I, Ralph W. Thomas, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-27751. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Enclosure

27751

RECEIVED
JAN 31 1968
Department of Reclamation

1597 Kearney,
Idaho Falls, Idaho.
Jan. 29, 1968.

Re: Permit No. G-27751.

State Dept. of Reclamation,
Boise, Idaho.

Gentlemen:

In December of last year a letter was sent to your department with an enclosed check for a permit for one well on my farm.

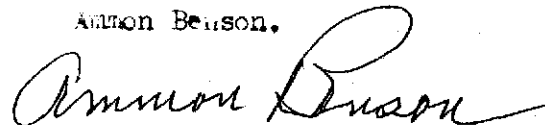

At the same time, a letter was written and a check for \$23 made out to cover this other well of which I am now writing. Since Mr. Merle Park and Sons did not purchase my farm, but had made the original applications, all of your correspondence has been mailed to them. They in turn send this to me, as the enclosure shows. However they have never owned, nor do they anticipate purchasing my farm so all correspondence should be sent to me.

I do not know what happened to the letter of Dec. 27th, or thereabouts, but I called Boise when I had not heard from the department recognizing my letter, and the file clerk looked into one file and found my letter, however he did not find the other one for the well I am now sending the \$23 for. He promised to call me the next morning, and took my telephone number. I waited all morning and did not get his call to tell me if he had located my other check, so this is the first I knew of it, since he did not telephone me as he promised.

I am enclosing the check in this letter, and hope that it will take care of the matter. If there is anything else that I should or can do, will you kindly let me know as I should like to get everything done that is needed? Should I have any acknowledgment from Mr. Parks that he does not own the property, or that he made the application for me when the well was drilled?

Very truly yours,

Ammon Benson.

Re: Permit No. G-27751

Merl Park & Sons
Hammer, Idaho

Dear Sirs:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27751 shows the well is (are) capable of conveying 132.5 miner's inches, or 2.65 c.f.s. of water for the irrigation of 237 acres.

Upon receipt of the statutory fees, totaling \$23.00, which consists of a Completion of Works fee of \$----- and License and Certificate of Water Right fee of \$----- - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right, confirming the right, with priority of January 26, 1959 to the use of 2.65 second feet of subterranean water with the point of diversion in the SW 1/4, Sec. 35 for irrigation of 237 acres in the NW 1/4, Sec. 35; T. 7 N., R. 36 E., B. 11, Sec. 36, T. 7 N., R. 36 E., B. 11.

Merl Park & Sons
Hamer, Idaho

Dear Mr. Petrie:

Received your letter stating that the reason for the amount of water on our permit G-29204 being 25.5 inches was because there was only 158 acres in the farm under irrigation. There is 1 (160 acres) almost totally under irrigation & better than $\frac{1}{2}$ of another 160 which should be about 240 to 250 acres the way we had it figured.

Yours truly
Ray Park

August 28, 1963

Re: Permits G-27751
G-29204

Merl Park & Sons
Hamer, Idaho

Attention Mr. Roy Park:

Dear Mr. Park:

In reply to your note on the bottom of our letter of August 16 it is necessary to point out that there are two permits involved with both covering the same lands, or 158 acres.

Permit G-27751 well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, T. 7 N., R. 36 E., B. M. was measured on July 17, 1963 by our examiner and produced 132.5 miner's inches. The well in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 35, T. 7 N., R. 36 E., B.M. under permit G-29204 was measured on the same date and produced 117 inches of water.

Summary: Statutorial amount of water per acre is one miner's inch, applied beneficially. The area of land under irrigation has been determined to be 158 acres.

Allowed under G-27751	132.5 miner's inches
-----------------------	----------------------

Balance to G-29204	<u>25.5 miner's inches</u>
--------------------	----------------------------

Total allowed:	158.0 miner's inches
----------------	----------------------

Very truly yours,

CARL E. TAPPAN

Re: Permit No. G-27751

Marl Park & Sons,
Hammer, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion~~ of Works and Application of Water to Beneficial Use under Permit No. G-27751. The proofs are to be made at 10:00 o'clock A.M. on the 2nd day of April, 1962, before Jesse Tremelling, 683 N. Capital, Idaho Falls, Idaho, Notary Public.

As of this date we have mailed the Notice to the Market Lake Citizen Roberts, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Ques. 3. Have you read or heard read said Permit No. G-27751, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean flow - S W 1/4 NE 1/4
Sec 35 Twp 7 N Rge 36 EBM

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 160 inches

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 160 inches

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

2. Ans. irrigation N E 1/4 Sec 35 Twp
24 age 36 EBM all west of
railroad Sec 36 Twp 24 age 36 EBM
cultivated land

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. sandy loam 1 inch to acre

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 2-3 times each summer

(Signed) Missie Sessions
same person as Mrs P. Sessions

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Idaho Falls Idaho, County of Bennett, State of Idaho, on this 30 day of April, A. D. 1947.

RE: Permit Nos. G-27751, G-29204
Merl Park & Sons

Ray Park
Hamer, Idaho

Dear Mr. Park:

Returned herewith are the depositions of holder and two witnesses in regard to the above noted permits. Also enclosed are two forms, application to amend the land list.

The land list of irrigation is not according to our record of the permits.

Permit No. G-29204, by amendment, is for irrigation of parts of the $W\frac{1}{2}NW\frac{1}{4}$, $SW\frac{1}{4}$, Sec. 36, T. 7 N., R. 36 E., B.M. lying west of the U. P. R.R.

Permit No. G-27751 is for irrigation of the $NE\frac{1}{4}$, Sec. 35, T. 7 N., R. 36 E., B.M.

You may amend your permits so both are to irrigate all of your land, or you can change to agree with your depositions. Do not show the same land under both permits unless all of the land is so shown.

There is a fee of \$1.00 for recording any amendment to a permit.

Kindly correct the land lists as you desire and return with amendments as necessary, also affidavit of publication, at your earliest convenience.

Very truly yours,

Ralph W. Thomas

Dear Miss Jones:

Your letter received in regard to non-payment of
fees for legal notices published in April, 1962.

We have a letter from Ray Park authorizing the
publication in the Rigby Star at their expense.

The depositions of proof noted in the legal notices
have not been received in this office. If the depositions are
received, we will demand the Affidavits of Publication, to complete
the file. I do not know of any other way we could assist in
collecting the fees.

LAND LIST

Permit No. G-27751

Department of Reclamation

Comes now

Marl Park & Sons

, and represents

to the STATE RECLAMATION ENGINEER of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27751, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

NE 1/4 Sec 35 Twp 7N Rge 36 E
All land lying east of Union Pacific
Railroad in Sec 36 Twp 7N Rge
36 E BM
~~This well will make 40 acres of this land~~
~~permit # G-27254 will make 360 acres~~

making a total of 320 acre

That an additional amount of water is now asked for, and that the rights of others will not be adversely affected thereby.

Signed

March 23, 1962

Market Lake Citizen
P. O. Box 1881
Idaho Falls, Idaho

Dear Sir:

State Statute 42-235 relating to proof of completion of works and beneficial use of the water from subterranean source refers to 42-217 which shows "Upon receipt of such notice by the department of reclamation the department shall order its publication in some newspaper designated by such user and published in the county in which the major portion of such land is situated, for a period of four weeks,"

State Statute 60-106 also shows that the paper must be published in the county for any legal notice.

As the Market Lake Citizen is published in Dubois, Clark County, it appears that your publication of the legal notice is not valid, as the Rigby Star is published in Rigby, Jefferson County.

By copy of this letter we are notifying the applicant Merl Parks & Sons, Hamer, Idaho that the notice must be in a paper published in Jefferson County. We regret that we did not discover the location of the publication earlier. Our records, previously, showed the paper was printed in Roberts, Jefferson County.

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 30th day of April 19 62, at Idaho Falls, County of Bonneville, State of Idaho, before Jesse Tremelling, Notary Public, at (address) 683 N. Capitol Idaho Falls, Ida., proof will be submitted of the completion of works for the diversion of 3.20 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-27751, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Merl Park & Sons, Hamer & Shelley, Idaho
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.20 cubic feet per second.
3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.20 cubic feet per second.
4. The point of diversion of said water is SW¹/₄ NE¹/₄, Sec. 35, Twp. 7 N., Rge. 36 E.B.M.
5. The place where said water is used is NE¹/₄, Sec. 35, Twp. 7 N., Rge. 36 E.B.M.
6. The date of priority which said user is prepared to establish is Jan. 26, 1959

Re: Permits G-27751; G-29204
Merl Park & Sons

Market Lake Citizen
Box 1881
Idaho Falls, Idaho

Dear Sir:

We noticed that the legal notice of proof of completion of works and beneficial use of the water under the permits noted above were published in the Clark County Enterprise. We trust that the same was in the Market Lake Citizen. The Idaho law requires publication in a paper published in the county wherein the point of diversion is located.

We presume that the notice of change in address does not mean that the papers will not be published in Jefferson and Clark counties.

Very truly yours,

February 23, 1962

RE: Permits No. G-27751
G-29204

Merl Park & Sons
Hamor, Idaho

Attention: Ray Park

Dear Mr. Park:

Returned herewith are the two sets of forms you submitted to this office. Also enclosed are new forms with two forms to amend the land list.

All check except the land to be irrigated and the total amount of water on which you can prove beneficial use.

Permit No. G-27751 shows the NE₁ of Section 35, Township 7 North, Range 36 East to be irrigated. Permit No. G-29204 shows the NE₁, SE₁, NE₁ of Section 35; W₁NW₁, SE₁NW₁ of Section 36, Township 7 North, Range 36 East.

You may amend the land list on one or both permits. There is a fee of \$1.00 for recording any amendment to a permit.

Kindly complete the new forms, showing the proper land to be irrigated as shown on your permit or amendment. The total amount of water should not total over one miners inch per acre of irrigated land. The date for making the proofs will probably have to be advanced.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Enc. Form 36 8
amendment 2

27751

Permit G-27751 - Originally filed for 3.2 cfs. from well in SW¹NE⁴, Sec. 35, T.7N.-R.36E.BM. Land list was NE⁴ Sec. 35, T.7N.-R.36E.BM.

On 2-20-63 land list was amended to read; NE⁴, Sec. 35; all land lying west of U.P.R.R. in Sec. 36; all in T.7N.-R.36E.BM. Total of 320 acres.

The last amendment of both permits is for the same land;

Permit G-27751 was advertised for proof ^{during} April, 1962 land list being NE⁴ Sec. 35, T.7N.-R.36E.BM.

Publisher's Affidavit of Publication submitted 4-12-63 for same land list, but an amendment to land list was recorded 4-3-63 reads: "NE⁴ Sec. 35, T.7N.-R.36E.; all land lying west of Union Pacific Railroad in Sec. 36, T.7N.-R.36E.BM." This would include the W²NW⁴, SW⁴, Sec. 36, lying west of U.P.R.R. in Sec. 36.

Engineer's Report shows land irrigated only in NE⁴, Sec. 35, and SW⁴NW⁴, Sec. 36, a total of 158 acres, for which 132 1/2 inches, the pump's amount measured, was allowed.

RECEIVED
JAN 30 1959
Department of Reclamation

Dear Sirs:

In response to your letter of January 26, 1959, concerning the water filing of Merl Park and Son, we wish to thank you for the courtesy extended on this matter.

In my letter on the second question, I made an error by stating the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 5--this should have read SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 26, Twp. 7 N; Range 36EBM and laying directly North of and adjoining the property owned by Merl Park and Son (NE $\frac{1}{4}$ of Section 35).

The application in the name of Merl Park and Sons, which I forwarded, should read on the map and on the location of the well on Page one as: SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 35; Twp. 7 No.

Trusting this will clarify this application, we remain,

Very Truly Yours,

M. Ball

27751

January 26, 1959

Mr. M. Ball
Cope Drilling and Pump Co.
P. O. Box 1134
Idaho Falls, Idaho

Dear Mr. Ball:

We find no record of a filing for a well in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 35, and no record of water right for the land in Section 36 west of the railroad tracks.

The Hamer Canal Co. Water License 13415 shows the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 26 and NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 35 as being under irrigation from their system. Permit 14982 was filed by the Hamer Canal Co. for lands which included the N $\frac{1}{2}$ and SE $\frac{1}{4}$ Section 35. No further filing is necessary for any land irrigated through the Hamer Canal Co. system.

In your letter the second question was about the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 5, however, no township or range was given. We are at a loss to determine what land you mean.

The application in the name of Merl Park and Sons you sent appears to be in order except on page 1, the location of the well is shown as NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 35. The map shows the proposed well will be in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 35. The application will be held pending advice from you as to the location of the well.

Very truly yours,

Geo. N. Carter
State Reclamation Engineer

IDAHO FALLS, IDAHO
January 22, 1959

RECEIVED
JAN 26 1959
Department of Reclamation

State of Idaho
Dept. of Reclamation
Boise, Idaho

Dear Sirs:

Enclosed please find application and filing fee for application for permit to appropriate subterranean waters in the NE $\frac{1}{4}$ of Section 35; Twp. 7 No.; 36 EBM in Jefferson County Idaho by Merl Park and Sons of Rt. #1 of Shelley, Ida.

There are several questions which I could not assist the customer with and I would like to have you refer to the enclosed sketch, which outlines the questions.

First: There is an existing well in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 35 which is currently being used for the existing well water for the existing canal that covers their property, including this NE $\frac{1}{4}$ of Sect. 35 and the legal description of: All west of the Railroad tracks in Section 36. Question: Are we correct in applying for a water permit--or is there a water permit covering this entirety mentioned above? If there is a water right now on the above described property--how much is now available? Is it all that is available for the above mentioned property? Is it covered--or should we apply for additional water or is the enclosed form in accordance with what should be done? We would appreciate knowing when it was filed on, by whom, and the quantity.

Second: The above mentioned customer was also asking about the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 5. He desires to purchase this property and understands it is irrigated by Hamer Canal Water. Can he apply for a water right or will he have to get same from the Hamer Canal Company? Would you supply us with any information you have on this property?

Thanking you for your courtesy extended on this, we remain,

Very Truly Yours,

M. Ball
