Director,

Dee's, Inc. hereby protests applications 15-7273, 15-7274, and 15-7275 on the following grounds:

1. These springs all feed Samaria Creek which feeds the Samaria Water and Irrigation Company's irrigation system. To lose this water would severely damage all the property served by this irrigation company.
2. Samaria Creek flows through our grazing property and is our source of stock water for our cattle on this range. If this water were diverted to other uses, our property would be virtually useless.

Sincerely,

Michael W. Olsen
