Subject: Lambert Transfer

Allen,

In reviewing the Ehlquist transfers in relation to withdrawing the Lambert/Double C old transfers, I realize that I left off two wells on the transfer I recently filed. Sorry about the confusion. I had thought these wells went to Ehlquist. Turns out that they are on Lambert ground and are included as pods in Lambert and Ehlquist water rights. I will send the appropriate amendments, including asking Scott King to update pod shapefile once I confirm the well locations.

I have gotten caught up in the ESPA litigation, so it will take me a few days to pull together the amendment.
