RE: Application for Water Right No. 75-07594

Dear Mr. Tolman:

In response to record low streamflows and declining groundwater levels resulting from drought conditions, the Director of the Department of Water Resources has declared a moratorium on approval on certain pending and future applications to appropriate water in the Salmon River Basin. The moratorium applies to surface water appropriations.

At this time the Department cannot take action on your application and we will put your application for permit into a moratorium hold file. Should the Department lift the moratorium sometime in the future, you will receive written notice from this office.

Sincerely,

Harold W. Jones *rb*
Water Right Supervisor

HWJ/rb
