RECEIVED

DEPARTMENT OF
WATER RESOURCES

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 37-21411

Name(s) of Permit Holder: Eugene Holman

Address: PO Box 1477 City Sun Valley State ID Zip 83353

Telephone No. 208-788-3217 Date Proof is Due: February 1, 2006

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

The spring box collection unit (a 12" vertical perforated pipe) has been installed, along with a 1" buried pipe of an approximate 50' length. This work was completed in November of 2005 by my contractor, Aaron Andrews of Carey, ID. The 1" pipe will be extended to the watering site next summer. The cost of the completed work is apprx. \$1,500.00 Costing \$ 1,500.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

This project also required an Army Corp of Engineer permit to disturb the wetlands area. That permit was not approved until May 16, 2005. Due to contractor availability and winter weather, the project could not be completed as of yet. Allowing an extension through 12/31/06 would assure completion during the dry season & prevent unnecessary disruption to the area.

Permit holder(s) request an extension to December 31, 2006.

**If other than permit holder, Power of Attorney must be supplied.*

APPROVED and the time with which to submit proof of beneficial use is extended to February 1, 2007.
