Subject: Williams Lake Conference

Dear Sharla,

Yesterday, I received an email from Roger in reply to some questions I had asked him. In his email he mentioned that a letter was heading for me that announced the pre-hearing conference set for April 24th.

I am unfamiliar with IDWR procedures with regard to hearings. What exactly is a "pre-hearing conference"? Is it an attempt at mediation or simply an information session held prior to a hearing? Do we testify under oath? Can we subpoena witnesses? Can anyone speak or only protestants? Is subject matter limited to the hearing subjects? Are there time constraints on speakers or on the conference itself?

I will look forward to your explanation.

Kathleen Gliksman

Dear Kathleen, Gary and Dani,

Sent via email 1/19/06
WRK

I received your emails concerning the Williams Lake amended applications yesterday and have included them with both files. We have been working feverishly scheduling the pre-hearing conference that has been set for April 24, 2006 in Salmon. Only yesterday did we send out the official notice, which all of you should receive any day now.

Both of your emails have been added to already voluminous files concerning these two permits, which have become a contested matter before the Department. I struggle to spend a lot of time answering your individual or collective concerns at this moment since it would be most appropriate to hear and address them at the pre-hearing conference. I look forward to meeting all of you at that time.

Sincerely,
