RE: App. For Permit For Wildlife Storage

Dear Mr. Lupher;

We are returning the above-referenced application and your check #3795. From your description of these ponds, they were created by damming some natural channels. If this correct, the correct terminology for this use is wildlife storage. The correct volume is 0.1 acre feet per annum, which is the minimum that we use in these situations. The filing fee for this amount of water is \$50, not the \$100 shown on your check. Since it is not cost effective for IDWR to make partial refunds, we must return your check for replacement with one for the correct amount. Once we receive the application and correct filing fee, I will contact you to schedule a pre-advertising examination of your facilities in order to verify the legal descriptions, water sources, etc.

Regards,

James E. Stanton
Sr. Water Resource Agent
