

State of Idaho
Department of Water Resources

RECOMMENDATION OF WATERMASTER

Application No: Transfer 72152
Water Right No: 36-2502
Applicant Name: Vanderham

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application
- b) ☒ I do not oppose approval of this application if it is conditioned as follows:

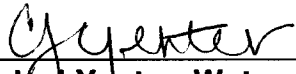

OK with standard measurement and water district conditons

- c) ☐ I oppose approval of this application(s) for the following reasons:
- d) ☒ Additional comment:

Vanderham reporting irrigation well is A0003721. The dairy facility in SENE Sec 22 was developed under permit 36-8636, which is still pending field exam so the overlap with 36-2502 had not been flushed out. Based on the reported gw volumes averaging just over 1 AFA, there is a good possibility that this $\frac{3}{4}$ pivot is used for dairy land application.

Dated: January 20, 2006

Water District 130
