Re: permit review

ESRP Non-Trust area. Domestic use, exempt.
No wild & scenic or min stream flow.

WD 29.

No overlap or protest.

Spoke to applicant about the spring being 20 feet below the surface. He indicated the water does pool at the surface but originates 20 feet deep. Groundwater and springs are both listed as sources on the permit, but only one point of diversion is authorized.

Recommend approval as suggested by IDWR Eastern.
