Subject: Eric Shandly Taylor Engineers in CDA 96-09191 Annual Volumes Why total less 208-666-0313

VoiceMessage

Q: Is 10 AF total volume an error given that uses add up to 14.4?

Talk with Bob Haynes

Talked with Bob at 5:00 on 1/24/06. He concurs that the 10.0 AF total is an error in interpretation of the protest resolution. He thinks the 10 AF limit was intended for the irrigation component of the right and that it should be added to the 5.4 for domestic use to get a total volume. Because the annual field headgate requirement for the area is 3.0 AF/acre per year, the irrigation volume will be limited to 9.0 AF, and the total will be 14.4 AF.
