Re: Water Permit No. 77-7382 and Application for Permit No. 77-14161
for Property in Copenhaver Subdivision

Dear Barbara:

Your above referenced permit 77-7382 was approved in February 2005 under the terms of the Wilderness Areas Moratorium administered by the Idaho Department of Water Resources (IDWR). Please note your approved water development did not *"include lawn, garden, landscape or other types of irrigation until the Wilderness Areas Moratorium is lifted or modified to allow the consumptive use of water in connection with the diversion of water for domestic purposes."* Also, any irrigation associated with domestic use would be limited to no more than 1/2 acre under this permit approval.

The IDWR Director rescinded the Wilderness Areas Moratorium with a November 9, 2005 order. You are therefore authorized to include up to 1/2 acre of irrigation associated with use under your permit.

Additionally, you filed Application 77-14161 in 2004 for the same source and same use approved under 77-7382. This duplication was due to previously unresolved issues surrounding the Wilderness Areas Moratorium. I recall we discussed this in detail during one of your visits to this office quite a while ago.

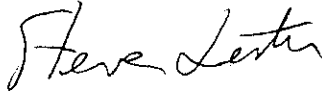

Application 77-14161 no longer serves any purpose. Permit 77-7382 includes an older priority for internal and external domestic use from the river for your subdivision lot. IDWR cannot approve a duplicate application.

Please consider withdrawing your application within the next thirty (30) days by using the enclosed form to receive a full refund of the \$100 filing fee. IDWR will void the application if a timely written reply is not received, precluding the possibility of a refund.
