Applicant Name: Clear Lake CC and Clear Lake Ranch P U D Master Assoc

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application
- b) ☒ I do not oppose approval of this application if it is conditioned as follows:

Clear Lake CC rights need mag meter condition 131

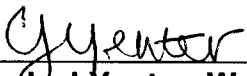

- c) ☐ I oppose approval of this application(s) for the following reasons:
- d) ☒ Additional comment:

Transfer measurement requirements are not dependant on source within the ESPA, only to some extent the nature of the system. Where this is a large irrigation system already diverting through closed conduit, and the flow meters are old and have had operational issues, I need clear authority to require mag meters if necessary.

Clear Lakes diversion ID nos. are: Clear Lake diversion A0001568, Clear Springs diversion A0011858.
