

May 20, 2000

Dear Sally,

We hope we are sending you the correct information. As you can see, in 1997 we gift deeded our home and surrounding area to our daughter, Sandra, so this is the most recent deed. We have a natural life estate on our home and property.

Vincent and wife Anni K. have sold their home and property and have drilled a well at this place, and no longer need their deeded water rights from our water source. On the enclosed map we have circled our water source.

Thank you

Gene & Hazel Baker
