RE: TRANSFER APPLICATION FOR BENARD SARINAS

Dear Mr. Robinson:

On 1/3/2006, you came into the Western Region of the Idaho Dept. of Water Resources (IDWR) to correct some issues on a transfer. During your visit, I was out of the office and unable to go over the entire transfer with you. You signed off on the changes as a whole, but I am not sure you are aware of each of the changes. Therefore, I wanted to send a copy of the transfer with the changes highlighted to make sure you are aware of what was done. I am also sending a copy of my draft memo that shows how the numbers were attained. Please send me a written response that you are aware and agree with the following changes to the transfer:

- 1.) The acre feet amount was changed on 61-12054 from 13.9 to 14.0 and the total acre-feet was also changed to 14.0.
- 2.) The range for the point of diversion and place of use on the front page was changed from 5E to 6E.
- 3.) The third page of Part 2 for water right 61-12054 was changed to 14 acre-feet, 3.9 acres changed, and 508 acre-feet and 112.1 acres remaining.
- 4.) The third page of Part 2 for water right 61-12056 was changed to 0.9 acres changed and 33.8 acres unchanged.

As I said above, I need verification that you are aware of all of these changes and not just the changes on the front page. Typically, we do this by having you initial each page, but in this case, a letter signed by you agreeing to all of the above changes should be sufficient, since you have already initialed the front page. Please return your response as soon as possible, so we can continue with processing.

If you have any questions or concerns please contact me at the above address.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent
