Re: Big Sky Partnership-Don McFarland - Beneficial Use Exams

Dear Lauri:

Enclosed are the Beneficial Use Reports for permits 63-8067, 63-9672, 63-10272, 63-11513, and 63-11514 for Big Sky Partnership. As you know, all wells in the irrigation system are integrated and combined with the surface water source from Little Camus Creek with storage in Rhead Reservoir. Development of historical data for well capacities and pumped volumes has been difficult, but the data we have obtained seems consistent. I relied on data and measurements from Steve Lester's 1996 evaluations.

Please call when you have had a chance to review the reports.

Sorry for the delay in submitting the exams, and thank you for your patience in this matter.

Sincerely,

Charles E. Brockway, P.E.
