Shelley,

As part of the whole scene with the dairy rights Travis Thompson contacted me about 47-12904 and 12905. In putting together a brief synopsis to accompany information I am sending I noticed that Brockway did an exam write up for - 8278.

It appears that his volumes are for the entire present operation - more than twice the applied for herd. Did you or your folks pick up on that discrepancy? It doesn't look like we'll be able to process the second application for permit, 47-8353, for the balance of the operation due to the moratorium.

Thanks, Shelley. Have a good week.

Doug
