Gary Young
City of Twin Falls
PO Box 1907
Twin Falls, ID 83303-1907

Dear Mr. Young:

As we discussed today during our telephone conversation, please find enclosed an application for amendment of permit 47-8389A that you filed with our office. As we discussed, proof of beneficial use has already been filed by the City of Twin Falls for this particular permit. Therefore, additional development (drilling of new wells) under this particular permit cannot be authorized. Because we have not yet completed processing of the application for amendment, I am initiating a refund of the \$50.00 filing fee with the fiscal section in our state office in Boise (see copy of e-mail enclosed).

I have also enclosed proof reports of water right permits 47-8389A and 47-8410 for your reference. These particular reports indicate the locations of the recorded points of diversion for the two permits. In addition, I have included a proof report of pending application 47-8389B for your reference. As we discussed, this particular application, for 14.00 cfs, is still protested, but if the protests can be resolved, our Department could continue processing this particular application. This may allow for additional groundwater development by the City of Twin Falls. If different well sites are desired, the application may need to be amended.

As we discussed, the City of Twin Falls may want to try and initiate a licensing field exam for permits 47-8389A and 47-8410 with our Department so that these permits can be finalized and licensed.

If you have any questions, or if you need any further assistance, feel free to contact our office at your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read 'Corey Skinner'.

Corey Skinner, PE
Water Resource Engineer
