Re: Field Examination for Permit No. 51-12992

Dear Permit Holders:

This office received word that you would like a field exam of your water system in order for a license to be issued. The Western Regional Office tries to accommodate such requests in a timely manner.

Sometimes it is not possible to do that. For instance, the Idaho Department of Water Resources (IDWR) is focusing its resources in 2005 to complete the massive Snake River Basin Adjudication (SRBA). This means the regional office must concentrate on licensing older permits to support SRBA efforts.

Other licensing work must be delayed while SRBA work is completed. It might not be feasible to complete your exam this year, but I will try my best to see that you are contacted late in the field season when SRBA pressure subsides. Please wait until about mid-October of this year for that contact. If you have not heard from this office by then, you can expect the contact to occur early in the 2006 field season (around April-June).

Thank you for your patience in this regard. Please contact me at 208-334-2190 if you have any questions.

Sincerely,

Steve Lester
Water Rights Supervisor
