RE: City of Mountain Home - Transfer No. 72128
Name Change on proposed Well Site, Possible Addition of Well Site

Dear Mr. Westra and Mr. Nelson:

Reference is made to the letter from Brockway Engineering dated December 28, 2005 regarding and additional point of diversion called the "School District Well". The proposed well should be called the "Rattle Snake Creek Well" instead of the "School District Well". We are concerned that confusion will occur when this is advertised since it is not on school district property. Please modify the request to reflect this name change.

Also, the City is considering another point of diversion on school district property and we have scheduled a meeting with the Superintendent of Schools on January 10, 2006 to discuss a well site. We hope to be able to finalize the application modifications soon after this meeting. The expected location of the new well site which we are calling the "East Side Park Well" is the SE1/4 NE/4 SE1/4 Section 25, T3S, R6E.

We understand that IDWR has been very cooperative and responsive to the City regarding this transfer request and that any delays caused by these changes are the City's responsibility. We will be ready to submit a revised request soon after the meeting with the school district. Thanks again for your support and cooperation in this matter.

Please let me know if you have any questions or need further information.

Sincerely,

L. Wayne Shepherd, P.E.
Director of Public Works

cc Mayor McNeal
Brockway Engineering
James Bledsoe, Keller Associates
