RE: WATER RIGHT APPLICATION

Dear Ms. Cox:

RECEIVED

DEC 14 2005

Department of Water Resources
Eastern Region

This letter is in response to your November 30, 2005 letter requesting written comments and/or recommendations on water right permit 21-13014. Our response is declared below.

This Department has a concern about the water right being issued. The subdivision where the water right is being requested was developed with the intent of private water/individual wells. Under Idaho Code 50-1334 (1) "the individual lots described on the plat will not be served by any water system common to one or more of the lots, but will be served by individual wells. Idaho Code does not allow for shared wells. Issuing the water right would go against Idaho Code.

Thank you for the opportunity to respond to the water right applications. Please call if you have questions. The number is (208) 523-5382.

Sincerely,

Kellye Eager
Environmental Health Director
