Subject: Transfers filed on Porcupine Springs...

Based on our recent exchange of e-mail I understand that the three new Applications for Permit that the Forest Service recently filed appear to in order. These are for (1) Pettit Campground, (2) Upper and Lower Penstemon Campgrounds, and (3) Diamondfield Jack Recreation Site. This message is to document that the Forest Service is withdrawing the three corresponding Applications For Transfer (# 71977, #71978 and # 71979) for the same sites in preference to the Applications For Permit just filed.

As a result of these new applications being able to go forward it is also appropriate for the Forest Service to withdraw it's claim for water right no. 47- 02560 for Lower Penstemon Campground from the SRBA. We do so at this time.

I'd like to thank the Department for it's help and advise on how to proceed with securing appropriate water rights for these campgrounds. If you have any questions about these matters, please contact me.
