RE: Continuation of application to appropriate water no 74-15613

Dear Sir:

As per your letter consider this letter my notification that I am interested in continuing in applying for a permit as represented by Application 74-15613 currently on file with the department.

I have been in discussion with the BLM in reference to the right-of way issue and they have assured me that when the water right permit is issued they are willing to complete the paperwork. According to the BLM it is only a matter of the paperwork.

Any additional information required will be provided prior to approval of the application.

Thank you,

James Whittaker
