RE: Water Right Permit No. 21-7155

Dear Mr. Nedrow:

The Department of Water Resources is reviewing the Permit No. 21-7155 prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified the beneficial use of water under Permit No. 21-7155 reported that the point of diversion and place of use for were developed differently than described on the permit.

Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Last month I requested an amendment from the permit holder of record, Mr. James R. Nedrow, but I received no response. I am notifying you of the need for an amendment because you claimed this permit in the Snake River Basin Adjudication. If I do not receive a response from you within 14 days, I will assume you have no interest in the permit, and I will initiate the cancellation process.

If you have any questions, please call me at 208-287-4947.

Sincerely,

A handwritten signature in black ink that reads 'Shelley W. Keen'.

Shelley W. Keen
Water Rights Supervisor
