Re: Application for Transfer of Water Right

Dear Mr. Merritt,

Enclosed is an application for transfer of water rights for our geothermal power generation project located near Bridge, in Cassia County.

U.S. Geothermal is using Scott King from SPF Water Engineering LLC in Boise as our consultant in this matter. If you have any questions on the application, please contact me and we will make sure you have the answers you require.

I look forward to working with you on this transfer which will support Idaho's first geothermal power plant development and bring a new industry to Cassia County.

Sincerely,

Doug Glaspey
Chief Operating Officer
