PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 67-14433

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use statement you submitted for Permit No. 67-14433.

Condition No. 6 of your water right permit requires that you install a measuring device and lockable controlling works on your diversion works to provide the watermaster suitable control. Your proof statement indicates that you have not installed these devices. Failure to have the devices installed and operable at the time the department conducts the field examination to verify your water use may jeopardize the validity of the permit. You may request, in writing, a waiver of the condition by the department describing the reasons for the request. The department suggests that you consult with the watermaster of Water District 67 prior to requesting a waiver of the requirement to install a measuring device and lockable controlling works.

Also, the examination fee for a diversion of 2.00 cfs is \$125.00. You paid \$150.00. The department will refund \$25.00 to you.

Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

Please contact me if you have any questions regarding the permit conditions, at 208-287-4947. If you have any questions concerning the field examination, please contact the Western Regional Office of the department in Boise, Idaho, at 208-334-2190.

Sincerely,

Shelley W. Keen

Water Rights Supervisor
