Re: Adjudication Claim 29-13215, Transfer Application

Dear Mr. Hayden:

Enclosed is a copy of an adjudication claim for additional decreed water from Rattlesnake Creek, and a copy of a transfer application to move the five acres of surface-water-irrigation from the upper place down to the lower place.

While I have prepared these documents, they are your documents and will bear your signature. Please review them carefully. Initial any changes you make.

There are some particular things you need to be aware of, too.

Adjudication Claim 29-13215

1. The claim I have prepared is for all of decreed right 29-481 (the Verley right) and for part of 29-478 (the Snyder right). You should be aware that another claim has been filed based upon 29-478.
2. I have left the claimants' names blank, for you to fill in as is appropriate. Please indicate whether you want the name connector to be "and" or "or." The biggest difference is that if the connector is "and," we require signatures of all claimants on the claim, to make any changes to the claim, or to settle any objections or disagreements. If the connector is "or," any of the claimants can sign for all business relating to that claim.

Transfer Application

1. You should recently have received a letter from Cheri Vandermeulen requesting further documentation to change the ownership of 29-2144. To speed along the transfer, I have included Russell Hayden's name on the application, as he is still an owner of record on our database. If you have the documentation Cheri asked for, you

Copy of claim form and transfer are in Boyce's correspondence
~ Celebrating Our Centennial Year of Service to Idaho 1895-1995 ~ record.

may cross Russell's name off the application and attach a copy of the documentation to the transfer application. Please send another copy directly to Cheri.

2. This transfer will leave the small groundwater irrigation right intact on the yard and campsite at the upper place, but moves all the recommended surface water down to the lower place.
3. Please send this back as quickly as possible. A notarized signature is required The transfer fee is \$100..

Please feel free to call me at 525-7161 if you have questions. Usually later in the week is a better time to catch me.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent
