RE: Water Right Application No. 37-21456

Dear Applicants:

The Department of Water Resources (IDWR) is processing your application to divert 2.24 cfs from W Canal to irrigate 90 acres within the SWNE and W½SE, Sec. 34, Twp. 6S, Rge. 13E. Your requested diversion rate equates to 0.025 cfs per acre. Pursuant to Idaho Code § 42-202(6), IDWR cannot issue a permit for irrigation purposes in excess of 0.02 cfs per acre unless the applicant demonstrates that the additional rate is necessary due to soil conditions, a limited number of hours to irrigate each day, or other similar reasons.

Please provide a written explanation for the additional diversion rate within 30 days. If IDWR does not receive your response within 30 days, your permit will be limited to 0.02 cfs per acre, or 1.80 cfs in total.

If you have any questions, please call me at 208-287-4953, or email me at kay.walker@idwr.idaho.gov.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Cc: Jim Stanton, IDWR Southern Region
