Boise, ID 83720-0098

Subject: Transfer 72072 – Water Right 63-32099

Dear Jeff:

The LDS Church forwarded to me a copy of Transfer 72072 (Water Right 63-32099) today. In reviewing the transfer, we noted that there is a typographical error in the place of use description. The description incorrectly lists 0.9 acres in the NESW of Section 10. Instead, the description should list 0.9 acres in the NWSW of Section 10. This error likely occurred sometime during the Department's data entry, as the application lists (and the map clearly shows) irrigation in the NWSW. Could you please correct this error?

Sincerely,

Terry M. Scanlan, P.E., P.G.
